November 30, 2024

Caution Regarding Forward-looking Statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Annual Management Report of Fund Performance as at November 30, 2024

Fidelity Asset Allocation Private Pool of the Fidelity Capital Structure Corp.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements for the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our website at www.fidelity.ca or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure relating to the investment fund.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: Fidelity Asset Allocation Private Pool (Fund) aims to achieve high total investment return. The Fund uses an asset allocation approach and invests primarily in equity, fixed income and money market securities. The Fund invests in these securities either directly or indirectly through investments in underlying Fidelity pools and underlying funds.

Strategies: The Fund's neutral mix is approximately 50% equity securities, 40% fixed-income securities, and 10% money market instruments. These securities may be either Canadian or foreign. Depending on market conditions, the portfolio managers may vary the Fund's asset mix from the neutral mix if they believe this will produce the best overall return. The portfolio managers generally keep the Fund's asset mix within the following ranges: 20–70% equity securities, 20–70% fixed-income securities, and 0–40% money market instruments. The Fund may also hold cash. The Fund may invest, directly or indirectly through investments in underlying Fidelity pools or underlying funds, in a wide variety of equity and fixed-income securities, including common shares, investment grade and high-yield fixed-income securities, commercial mortgage-backed securities, and convertible securities. Furthermore, the Fund may also invest a portion of its assets in exchange-traded funds (ETFs). The Fund, the underlying Fidelity pools and the underlying funds may invest up to 10% of its net assets in securities of private real estate vehicles. The Fund, the underlying Fidelity pools and the underlying funds may use derivatives. In the case of the Fund, the underlying Fidelity pools and the underlying Fidelity funds, derivatives such as options, futures contracts, forward contracts and swaps may be used to hedge against losses caused by changes in security prices, interest rates or exchange rates. The Fund, the underlying Fidelity pools and the underlying Fidelity funds may also use derivatives for non-hedging purposes, including as a substitute for a stock, stock market or other security, or where their use is considered efficient from a portfolio management perspective.

Risk

The risks associated with investing in this Fund remain as discussed in the prospectus. Any changes to the Fund over the period have not affected the overall level of risk of the Fund.

The Fund is suitable for medium- to long-term investors who want to gain exposure to both equity and fixed income securities, and want the convenience of a diversified portfolio in a single fund, and can handle the volatility of returns generally associated with equity investments. Registered plan investors should be aware that the Fund may, from time to time, bear an income tax expense which will reduce returns. To invest in the Fund, investors should be willing to accept a low to medium level of risk. The suitability of the investment has not changed from what has been disclosed in the prospectus.

Results of Operations

Fidelity Asset Allocation Private Pool, Series B, returned 16.1%, after fees and expenses, for the twelve-month period ended November 30, 2024. The net returns of the other series of the Fund are similar to those of Series B, except for differences attributable to expense structures. During the review period, Canadian equities, as represented by the S&P/TSX Composite Index, returned 30.7% (in Canadian dollar terms) and Canadian bonds, as represented by the FTSE Canada Universe Bond Index, returned 8.6% (in Canadian dollar terms).

Market overview:

Canadian equities, as measured by the S&P/TSX Composite Index, returned 30.7% for the one-year period ended November 30, 2024.

Canadian equities rose over the review period, buoyed by strong performance in key sectors. Materials and financials were among the best performing sectors, driven by an increase in gold prices and a more favourable outlook on banking stocks amongst market participants, respectively. All sectors, except the communication services sector, advanced over the period. The telecommunications-heavy communication services sector declined due to stock specific factors. On the other hand, many companies in the information technology sector benefited from renewed investor optimism, and cyclical sectors such as industrials, consumer discretionary, and energy recorded solid gains despite periods of volatility. Market volatility persisted due to risks such as uncertainty around the direction of U.S. monetary policy and its resulting impact on the Canadian dollar and trade balance. The Canadian economy grew at a slower-than-expected pace, with an annualized growth rate of 1.0% in the third quarter of 2024 compared to higher growth earlier in the year. Inflation, as measured by the consumer price index, declined rapidly, from 3.1% in November 2023 to 2.0% in October 2024, indicating a slowdown in price increases. The labour market showed signs of softening, with the unemployment rate rising from 5.8% in November 2023 to 6.5% in October 2024. This trend supported the case for continued interest rate reductions by the Bank of Canada (BoC). Against this backdrop, the BoC announced a number of interest rate cuts, reducing the benchmark rate from 5.0% in November 2023 to 3.75% in October 2024.

Canadian investment-grade bonds, as broadly represented by the FTSE Canada Universe Bond Index, returned 8.6% for the one-year period ended November 30, 2024.

Canadian investment-grade bonds rose over the period under review, as the Bank of Canada (the BoC) announced several interest rate cuts, the inflation rate declined rapidly, and the Canadian economy grew at a slower pace than expected. Towards the end of the review period, longer-maturity Canadian government bond yields rose, despite a 50-basis point interest rate cut by the BoC. Canada's Consumer Price Index (CPI) inflation is now around 2.0%, at the BoC's target, mainly due to lower energy prices and weakened inflationary pressures. While energy exports are rising, growth in business investment and government spending has slowed, and excess supply in the economy persists. Employment has softened, with wage growth outpacing productivity gains. Economic growth is projected to gradually strengthen through 2025-2026, supported by lower interest rates, steady consumer spending, and robust export demand. Canada's GDP growth exceeded expectations in the second quarter but appears weaker for the third quarter, with GDP per capita continuing to decline into the end of 2024.

Factors affecting performance:

Fidelity Asset Allocation Private Pool of the Fidelity Capital Structure Corp. Management Discussion of Fund Performance – continued

The Fund underperformed its broad-based equity benchmark, the S&P/TSX Composite Index, due to its allocation to fixed income. The Fund outperformed its broad-based fixed income benchmark, the FTSE Canada Universe Bond Index, due to its investments in equities.

The Fund's blended benchmark returned 18.5% during the review period. As at November 30, 2024, this blended benchmark is composed of 28.7% S&P/TSX Capped Composite Index, 16.0% Bloomberg Global Aggregate Bond Index, 20.0% MSCI ACWI (All Country World Index) ex Canada Index, 22.7% FTSE Canada Universe Bond Index, 10.0% FTSE Canada 91 Day T-Bill Index and 2.6% MSCI/REALPAC Canada Quarterly Property Index.

The Fund underperformed its benchmark, primarily due to investments in, and lower-than-benchmark exposure to, Canadian equities, as well as out-of-benchmark exposures to U.S. investment-grade bonds and Canadian real return bonds.

Conversely, investments in U.S. equities, and higher-than-benchmark exposure to emerging markets equities and developed international equities, contributed to relative returns. In fixed income, lower-than-benchmark exposure to, and investments in, Canadian investment-grade bonds and global investment-grade bonds contributed to relative returns.

Portfolio changes:

During the review period, portfolio managers David Wolf and David Tulk introduced exposure to private real estate through the Fidelity Canada Private Real Estate Trust, managed by Brookfield, for its diversification benefits and potential for enhanced risk-adjusted returns, according to the managers. The portfolio managers also increased exposure to U.S. equities and to commodities-related equities through a gold exchange-traded fund (ETF), due to what the managers believed to have a relatively more attractive risk/reward outlook. Conversely, the managers reduced exposure to developed international equities and Canadian equities, seeking what they believed to have more attractive opportunities elsewhere with better risk/reward potential. In fixed income, exposure to Canadian investment-grade bonds and global investment-grade bonds was reduced.

Derivatives disclosure:

During the period, the Fund engaged in equity futures contracts in a manner consistent with its investment objective and strategies, to effectively change its exposure to various equities without the need to buy into or sell out of strategic positions.

During the period, the Fund engaged in forward foreign currency contracts, in a manner consistent with its investment objectives and strategies, to hedge against the effect of currency fluctuations on the investment returns of the Fund. The use of forward contracts in this manner does not completely eliminate the impact of currency fluctuations on returns.

Recent Developments

Portfolio managers David Wolf and David Tulk observe that the economy in developed markets remains resilient, despite signals which have led central banks to begin cutting policy interest rates. However, Canada has shown anemic growth, according to the portfolio managers, who believe that Canada's lagging growth may be due to a divergence appearing between U.S. and Canadian consumers, with the U.S. consumer base being seen as stronger and more adaptable. With headline inflation continuing to moderate, the managers believe that central banks may not need to further tighten monetary policy, and that the U.S. Federal Reserve's policy rate normalization can continue. The portfolio managers also believe this may provide slightly easier financial conditions heading into the end of 2024 and into 2025. The managers believe that the last mile of deflation toward the 2% target could remain a challenge, particularly as potential trade barriers and possible fiscal expansion following the U.S. election could fuel a sudden rise in inflation, which could require central banks to make a sudden shift in policy decisions. The portfolio managers are hopeful that future earnings estimates point to continued economic momentum and observe that corporate level fundamentals appear to remain strong. The managers believe this may be attributed to advancements in artificial intelligence, coupled with the ongoing prevalence of remote and hybrid work arrangements, which both likely contribute to productivity gains, according to the managers, who also continue to focus on constructing portfolios that are well diversified across asset classes, styles and regions as they believe this is the right way to both protect and grow capital over the long run.

Effective July 1, 2024, the Fund's benchmark changed from 30.0% S&P/TSX Capped Composite Index, 16.0% Bloomberg Global Aggregate Bond Index, 20.0% MSCI ACWI (All Country World Index) ex Canada Index, 24.0% FTSE Canada Universe Bond Index and 10.0% FTSE Canada 91 Day T-Bill Index to 29.5% S&P/TSX Capped Composite Index, 16.0% Bloomberg Global Aggregate Bond Index, 20.0% MSCI ACWI (All Country World Index) ex Canada Index, 23.5% FTSE Canada Universe Bond Index, 10.0% FTSE Canada 91 Day T-Bill Index, and 1.0% MSCI/REALPAC Canada Quarterly Property Index.

Effective August 1, 2024, the Fund's benchmark changed to 29.4% S&P/TSX Capped Composite Index, 16.0% Bloomberg Global Aggregate Bond Index, 20.0% MSCI ACWI (All Country World Index) ex Canada Index, 23.4% FTSE Canada Universe Bond Index, 10.0% FTSE Canada 91 Day T-Bill Index, and 1.2% MSCI/REALPAC Canada Quarterly Property Index.

Effective September 1, 2024, the Fund's benchmark changed to 28.7% S&P/TSX Capped Composite Index, 16.0% Bloomberg Global Aggregate Bond Index, 20.0% MSCI ACWI (All Country World Index) ex Canada Index, 22.7% FTSE Canada Universe Bond Index, 10.0% FTSE Canada 91 Day T-Bill Index, and 2.6% MSCI/REALPAC Canada Quarterly Property Index.

Related Party Transactions

Manager and Portfolio Adviser

The Fund is managed by Fidelity Investments Canada ULC (Fidelity). Fidelity is part of a broader collection of companies collectively known as Fidelity Investments.

Fidelity provides or arranges for the provision of all general management and administrative services required by the Fund in its day-to-day operations, bookkeeping, record-keeping and other administrative services for the Fund.

Fidelity is the portfolio adviser to the Fund and it provides investment advisory services to the Fund. Fidelity has entered into sub-advisory agreements with a number of entities, including Fidelity Management & Research Company LLC. With respect to the Fund, Fidelity Management & Research Company LLC has entered into a further sub-advisory agreement with Fidelity Management & Research (Canada) ULC to provide investment advice with respect to all or a portion of the investments of the Fund. The sub-advisors arrange for acquisition and disposition of portfolio investments, including all necessary brokerage arrangements. The Fund pays Fidelity a monthly management and advisory fee for their services, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity management and advisory fees of \$11,668,000 for the period ended November 30, 2024.

Administration Fee

Fidelity charges the Fund a fixed administration fee in place of certain variable expenses. Fidelity, in turn, pays all of the operating expenses of the Fund, other than certain specified fund costs (e.g. the fees and expenses of the Independent Review Committee, taxes, brokerage commissions and interest charges). The Fund pays an annual rate based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity administration fees of \$1,756,000 for the period ended November 30, 2024.

Brokerage Commissions

The Fund may place a portion of its portfolio transactions with brokerage firms which are affiliates of Fidelity, provided it determines that these affiliates' trade execution abilities and costs are comparable to those of non-affiliated, qualified brokerage firms, on an execution-only basis. Commissions paid to brokerage firms that are affiliates of Fidelity Investments were \$0 for the period ended November 30, 2024. Fidelity receives standing instructions from the IRC in respect of policies and procedures governing best execution of transactions with affiliates, which includes brokers affiliated to Fidelity Investments, at least once per year.

Independent Review Committee, Cross-Trading and In specie Transactions

Independent Review Committee

Fidelity has established an independent review committee (IRC) that acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting conflict of interest matters referred to it by Fidelity. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available at www.fidelity.ca or at the securityholder's request at no cost by contacting Fidelity, using the contact information available on the final page of this document.

Cross-Trading and In specie Transactions

The Fund received the approval and standing instructions from the IRC in order to:

- (i) engage in cross-trading, which is a form of interfund trading. A cross-trade occurs when the Fund purchases or sells portfolio securities from or to another Fund, a U.S. fund or a separately managed account, through a broker;
- (ii) permit the Fund, in certain circumstances, to purchase and redeem Fund securities in consideration for securities rather than cash of another investment fund not governed by NI 81-102, or a separately managed account, managed by Fidelity.

For each of the transactions in (i) and (ii) above, the IRC's standing instructions require Fidelity to act in accordance with its associated policies and procedures and applicable law, and comply with the conditions in each of the exemptive relief orders received, which, in the case of cross-trading, requires additional periodic reporting to the Ontario Securities Commission. The standing instructions also require that investment decisions in respect of these transactions (a) are free from any influence by an entity related to Fidelity and without taking into account any consideration relevant to an entity related to Fidelity; (b) represent the business judgment of Fidelity uninfluenced by considerations other than the best interests of the Fund; (c) comply with the applicable policies and procedures of Fidelity; and (d) achieve a fair and reasonable result for the Fund.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period end of the years shown. This information is derived from the Fund's audited annual and/or unaudited semi-annual financial statements. Please see the front page for information about how you can obtain the Fund's annual or semi-annual financial statements.

Financial Highlights Footnotes

- ^A This information is derived from the Fund's audited annual and/or unaudited interim financial statements. The net assets attributable to securityholders per security presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to financial statements.
- ^B Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per security.
- ^C Distributions were paid in cash or reinvested in additional securities of the Fund, or both, and excludes any applicable distributions of management fee reduction to securityholders.
- ^D Prior period amounts may have been adjusted.
- ^E This information is provided as at period end of the year shown.
- ^F Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset values during the period, including the Fund's pro-rata share of estimated expenses incurred in any underlying investment fund, if applicable, (2024: —%, 2023: —%, 2022: .01%, 2021: .01%, 2020: .02%).
- ^G The trading expense ratio represents total commissions, other portfolio transaction costs and dividends and interest expense on securities sold short expressed as an annualized percentage of daily average net asset value during the period, including the Fund's pro-rata share of estimated trading costs incurred in any underlying investment fund, if applicable.
- ^H The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities owned by the Fund, excluding short-term securities. The portfolio turnover rate includes any proceeds from a short sale in the value of sales of securities and the cost of covering a short sale in the value of purchases of securities. For periods greater than six months, but less than a full fiscal year, the portfolio turnover rate is annualized. The portfolio turnover rate excludes any adjustment for in-kind transactions.

Management and Advisory Fees

Fidelity serves as manager and investment advisor of the Fund. The Fund pays Fidelity a monthly management and advisory fee for its services, based on the net asset value of each Series, calculated daily and payable monthly. Fidelity uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund securities, as well as for the general investment management expenses. Dealer compensation represents cash commissions paid by Fidelity to registered dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by Fidelity during the period. For new Funds or Series the amounts presented may not be indicative of longer term operating periods.

	Management Fees (%)	Dealer Compensation (%)	Investment management, administration and other (%)
Series B	1.700	58.82	41.18
Series F	0.700	-	100.00
Series F5	0.700	-	100.00
Series F8	0.700	-	100.00
Series I	1.700	58.82	41.18
Series I5	1.700	58.82	41.18
Series I8	1.700	58.82	41.18
Series S5	1.700	58.82	41.18
Series S8	1.700	58.82	41.18

Fidelity Asset Allocation Private Pool of the Fidelity Capital Structure Corp.

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for each of the years shown, and illustrates how the Fund's performance was changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

Fidelity Asset Allocation Private Pool Blend Index	18.5%	5.7%	6.6%	6.2%

A discussion of Fund performance can be found in the "Results of Operations" section of this report.

The Fund's benchmark consists of 28.7% S&P/TSX Capped Composite Index, 16.0% Bloomberg Global Aggregate Bond Index, 20.0% MSCI ACWI (All Country World Index) ex Canada Index, 22.7% FTSE Canada Universe Bond Index, 10.0% FTSE Canada 91 Day T-Bill Index, and 2.6% MSCI/REALPAC Canada Quarterly Property Index.

Prior to September 1, 2024, the Fund's benchmark consisted of 29.4% S&P/TSX Capped Composite Index, 16.0% Bloomberg Global Aggregate Bond Index, 20.0% MSCI ACWI (All

Country World Index) ex Canada Index, 23.4% FTSE Canada Universe Bond Index, 10.0% FTSE Canada 91 Day T-Bill Index, and 1.2% MSCI/REALPAC Canada Quarterly Property Index.

Prior to August 1, 2024, the Fund's benchmark consisted of 29.5% S&P/TSX Capped Composite Index, 16.0% Bloomberg Global Aggregate Bond Index, 20.0% MSCI ACWI (All Country World Index) ex Canada Index, 23.5% FTSE Canada Universe Bond Index, 10.0% FTSE Canada 91 Day T-Bill Index, and 1.0% MSCI/REALPAC Canada Quarterly Property Index.

Prior to July 1, 2024, the Fund's benchmark consisted of 30.0% S&P/TSX Capped Composite Index, 16.0% Bloomberg Global Aggregate Bond Index, 20.0% MSCI ACWI (All Country World Index) ex Canada Index, 24.0% FTSE Canada Universe Bond Index and 10.0% FTSE Canada 91 Day T-Bill Index.

The S&P/TSX Composite Index is an index of stocks that are generally considered to represent the Canadian equity market.

The S&P/TSX Capped Composite Index is the same as the S&P/TSX Composite Index except that it is adjusted quarterly so that no single stock has a relative weight in the index greater than 10.0%.

The FTSE Canada Universe Bond Index is a broad measure of the Canadian investment-grade fixed-income market, consisting of Government of Canada, provincial, corporate and municipal bonds issued domestically in Canada and denominated in Canadian dollars.

Effective April 12, 2019, the FTSE TMX Canada indices were renamed as FTSE Canada indices as a result of FTSE Russell's acquisition of FTSE TMX Global Debt Capital Markets Limited.

The MSCI ACWI (All Country World Index) ex Canada Index is an unmanaged, free float-adjusted market capitalization weighted index composed of stocks of companies located in countries throughout the world except Canada. It is designed to measure equity market performance in global developed and emerging markets excluding Canada.

The Bloomberg Global Aggregate Bond Index covers the most liquid portion of the global investment grade fixed-rate bond market, including government, credit and collateralized securities.

On August 24, 2016, Bloomberg purchased the Barclays family of benchmark indices. As part of this transaction, all Barclays benchmark indices have been co-branded as the Bloomberg Barclays Indices for an initial period of 5 years. Effective August 24, 2021, the Bloomberg Barclays fixed income benchmark indices were rebranded as the Bloomberg Indices. This change occurred as planned at the end of the five-year period following Bloomberg's acquisition of Barclays Risk Analytics and Index Solutions (BRAIS) in August of 2016.

The FTSE Canada 91-Day T-Bill Index is a measure of the Canadian treasury bill market.

MSCI/REALPAC Canada Quarterly Property Index measures unlevered total returns of directly held property investments across Canada. The index tracks the performance of over 2,300 property investments.

Each series of the Fund will have different returns because of differences in management fees and expenses.

Total Fund Net Assets \$1,193,639,000

If the fund invests in another fund managed by Fidelity, which in turn invests more than 10% of its net assets in any third-tier fund also managed by Fidelity, the Top Issuers table would include a pro-rata look-through into the assets held by the third tier fund. This amount will be disclosed if it meets the criteria to be included in the Top Issuers table.

Where applicable, the information in the above tables includes the Fund's pro-rata share of the investment in any Fidelity managed underlying fund.

All tables within the Summary of Investment Portfolio section, except the Top Issuers table, contain audited annual information.

Summary of Investment Portfolio as at November 30, 2024 – continued

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. The most recent annual report, semi-annual report, quarterly report, fund facts document or simplified prospectus for the investment fund and/or underlying fund is available at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments Canada ULC, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our web site at www.fidelity.ca or SEDAR+ at www.sedarplus.ca.

Fidelity's mutual funds are sold by registered Investment Professionals. Each Fund has a simplified prospectus, which contains important information on the Fund, including its investment objective, purchase options, and applicable charges. Please obtain a copy of the prospectus, read it carefully, and consult your Investment Professional before investing. As with any investment, there are risks to investing in mutual funds. There is no assurance that any Fund will achieve its investment objective, and its net asset value, yield, and investment return will fluctuate from time to time with market conditions. Investors may experience a gain or loss when they sell their securities in any Fidelity Fund. Fidelity Global Funds may be more volatile than other Fidelity Funds as they concentrate investments in one sector and in fewer issuers; no single Fund is intended to be a complete diversified investment program. Past performance is no assurance or indicator of future returns. There is no assurance that either Fidelity Canadian Money Market Fund, Fidelity Canadian Money Market Investment Trust, Fidelity U.S. Money Market Fund or Fidelity U.S. Money Market Investment Trust will be able to maintain its net asset value at a constant amount. The breakdown of Fund investments is presented to illustrate the way in which a Fund may invest, and may not be representative of a Fund's current or future investments. A Fund's investments may change at any time.
