## Caution Regarding Forward-looking Statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

# Annual Management Report of Fund Performance as at June 30, 2024

## Fidelity Canadian Fundamental Equity Multi-Asset Base Fund

*This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements for the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our website at [www.fidelity.ca](http://www.fidelity.ca) or SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).*

*Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure relating to the investment fund.*

## Management Discussion of Fund Performance

### Investment Objective and Strategies

**Investment Objective:** Fidelity Canadian Fundamental Equity Multi-Asset Base Fund (Fund) aims to achieve long-term capital growth by investing primarily in equity securities of Canadian companies and seeks to identify high quality companies which are believed to be attractively valued.

**Strategies:** The Fund employs a bottom-up fundamental investment strategy. When buying and selling equity securities, the portfolio manager examines each company's potential for success based on its current financial condition and industry position, as well as economic and market conditions. The portfolio manager considers factors such as growth potential, earnings estimates and quality of management. The Fund may invest in companies of any size. It may invest up to approximately 30.0% of its net assets in foreign securities. It may also invest in fixed income securities of any quality or term and may hold cash. The Fund may also enter into repurchase, reverse repurchase and securities lending transactions, use derivatives for hedging and non-hedging purposes and invest in precious metals and other physical commodities through commodity ETFs and/or derivatives.

### Risk

The risks associated with investing in this Fund remain as discussed in the prospectus. Any changes to the Fund over the period have not affected the overall level of risk of the Fund.

The Fund is suitable for medium- to long-term investors who want to gain exposure to Canadian equity securities, and can handle the volatility of returns generally associated with equity investments. The Fund is not an appropriate investment for investors with a short-term investment horizon. To invest in the Fund, investors should be willing to accept a medium level of risk. The suitability of the investment has not changed from what has been disclosed in the prospectus.

### Results of Operations

Securities of this Fund are only available for purchase by other funds and accounts managed or advised by Fidelity, and are not available for public purchase.

Fidelity Canadian Fundamental Equity Multi-Asset Base Fund, Series O, returned 16.1%, for the year ended June 30, 2024. During the review period, Canadian Equities, as represented by the S&P/TSX Capped Composite Index, returned 12.1% (in Canadian dollar terms).

Market overview:

Canadian equities, as measured by the S&P/TSX Composite Index, returned 12.1%, for the one-year period ended June 30, 2024.

Canadian equities advanced for the period under review. Increases in cyclically sensitive sectors, such as energy and materials, were driven by rising oil and commodity prices. Financials also rose, supported by the general health of the Canadian banking sector. However, there were modest signs of stress among smaller businesses and households due to high leverage and the impact of prior rate hikes. In contrast, the communication services and real estate sectors faced headwinds, particularly towards the end of the review period. These sectors were pressured by higher interest rates and a shift in consumer spending patterns. A stable domestic economic environment, resilient growth in the U.S. economy, combined with a general trend towards lower inflation supported investor sentiment. The annual inflation rate fell to 2.7% in April 2024 from 2.9% in March 2024, due to slower growth of food prices. Despite an increase in the unemployment rate to 6.2% in May 2024, job creation surpassed expectations, indicating underlying economic resilience. The Bank of Canada (BoC) forecasts GDP growth of 1.5% in 2024 and 2.2% in 2025. Based on this outlook, the BoC lowered its policy rate by 25-basis points to 4.75% in June 2024, the first rate cut in four years and signalled a shift towards more accommodative monetary policy as inflation pressures moderated.

Factors affecting performance:

The Fund outperformed its benchmark, the S&P/TSX Capped Composite Index, primarily due to investments in, and higher-than-benchmark exposure to, the information technology sector. In the sector, investments in Canada-based software firm Constellation Software and U.S.-based technology firm Microsoft contributed to relative returns. Exposure to certain stocks in the industrials sector, such as Canada-based design, engineering and project management services firm AtkinsRéalis Group and Canada-based content and technology company Thomson Reuters, also contributed to relative returns. In other sectors, investments in Canada-based oil and natural gas company Canadian Natural Resources and Canada-based retail firm Dollarama contributed to relative returns.

In contrast, a lower-than-benchmark exposure to the financials sector detracted from relative returns, particularly a lack of exposure to a Canada-based insurance firm and a lower-than-benchmark exposure to Canada-based global investment firm Brookfield Corporation. A lower-than-benchmark exposure to the consumer staples sector also detracted from relative returns. In the sector, an investment in Canada-based grocery retailer Loblaw Companies detracted from relative returns. In other sectors, investments in Canada-based women's fashion retailer Aritzia and Canada-based software firm OpenText, and a lack of exposure to a Canada-based integrated oil and gas company detracted from relative returns.

At the end of the review period, the Fund had no exposure to Brookfield Corporation, Loblaw Companies or OpenText.

Portfolio changes:

During the review period, the Fund's exposure to the materials and financials sectors was increased. In the materials sector, the portfolio manager increased exposure to Canada-based minerals and precious metals mining firm Ivanhoe Mines. In the financials sector, a position was initiated in Canada-based alternative asset management firm Brookfield Asset Management. The portfolio manager believed both stocks had an attractive risk/reward outlook.

## **Fidelity Canadian Fundamental Equity Multi-Asset Base Fund**

### **Management Discussion of Fund Performance – continued**

In contrast, exposure to the consumer discretionary and industrials sectors was decreased. In the consumer discretionary sector, the portfolio manager reduced exposure to Canada-based quick-service restaurant operator Restaurant Brands International. In the industrials sector, exposure was reduced to Canada-based railway holding firm Canadian Pacific Kansas City Limited. The positions were reduced to pursue what the portfolio manager believed to be better risk/reward opportunities elsewhere.

At the end of the review period, the Fund had its largest absolute exposure to the industrials sector, followed by the financials sector. The Fund diverged most from its benchmark's sector weightings by having more exposure to the industrials sector and less exposure to the financials sector.

#### **Recent Developments**

Portfolio manager Darren Lekkerkerker focuses on companies the manager believes have solid business models, better shareholder-oriented management teams, and that are trading at relatively attractive valuations. With headline inflation continuing to moderate, the portfolio manager notes that central banks may not feel the need to maintain such stringent monetary policy. Although it remains a debate on the degree and schedule of interest rate cuts, the manager notes that the direction of monetary policy is likely to be towards loosening. The portfolio manager notes that a soft landing may be achieved in the U.S. amid easier financial conditions and a resilient consumer base. In Canada, however, a slowdown may be the more likely outcome, given the higher interest rate sensitivity of the economy, which has led to the divergence between the strength of Canadian and U.S. consumers. The portfolio manager also notes that the corporate earnings outlook currently appears favourable. Companies may face fewer headwinds with declining costs and interest rates in combination with potential revenue growth. The portfolio manager continues to focus on owning what the manager believes are high-quality companies in the portfolio, along with stocks the manager believes may have more idiosyncratic catalysts and that could be less affected by a potential economic slowdown. The portfolio manager continues to focus on bottom-up security selection and aims to be fully invested. The portfolio manager continues to seek attractive investment opportunities, and stresses the importance of investing in high-quality businesses.

Effective September 19, 2023, Anne Bell of Mississauga, Ontario, became a member of the Independent Review Committee (IRC).

#### **Related Party Transactions**

##### **Manager and Portfolio Adviser**

The Fund is managed by Fidelity Investments Canada ULC (Fidelity). Fidelity is part of a broader collection of companies collectively known as Fidelity Investments.

Fidelity provides or arranges for the provision of all general management and administrative services required by the Fund in its day-to-day operations, bookkeeping, record-keeping and other administrative services for the Fund.

Fidelity is the portfolio adviser to the Fund and it provides investment advisory services to the Fund. Fidelity provides investment advice with respect to the Fund's investment portfolio and arranges for the acquisition and disposition of portfolio investments, including all necessary brokerage arrangements. The Fund is only offered in Series O securities and is only available to: (i) institutional investors who may be individuals or financial institutions who have been approved by Fidelity and have entered into Series O fund purchase agreements with Fidelity; or (ii) other funds and accounts managed or advised by Fidelity. The Fund does not pay management and advisory fees, or other operating expenses, other than certain specified fund costs, including taxes, brokerage commissions and interest charges.

##### **Brokerage Commissions**

The Fund may place a portion of its portfolio transactions with brokerage firms which are affiliates of Fidelity, provided it determines that these affiliates' trade execution abilities and costs are comparable to those of non-affiliated, qualified brokerage firms, on an execution-only basis. Commissions paid to brokerage firms that are affiliates of Fidelity Investments were \$0 for the period ended June 30, 2024. Fidelity receives standing instructions from the IRC in respect of policies and procedures governing best execution of transactions with affiliates, which includes brokers affiliated to Fidelity Investments, at least once per year.

#### **Independent Review Committee, Cross-Trading and In specie Transactions**

##### **Independent Review Committee**

Fidelity has established an independent review committee (IRC) that acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting conflict of interest matters referred to it by Fidelity. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available at [www.fidelity.ca](http://www.fidelity.ca) or at the securityholder's request at no cost by contacting Fidelity, using the contact information available on the final page of this document.

##### **Cross-Trading and In specie Transactions**

The Fund received the approval and standing instructions from the IRC in order to:

- (i) engage in cross-trading, which is a form of interfund trading. A cross-trade occurs when the Fund purchases or sells portfolio securities from or to another Fund, a U.S. fund or a separately managed account, through a broker;
- (ii) permit the Fund, in certain circumstances, to purchase and redeem Fund securities in consideration for securities rather than cash of another investment fund not governed by NI 81-102, or a separately managed account, managed by Fidelity.

For each of the transactions in (i) and (ii) above, the IRC's standing instructions require Fidelity to act in accordance with its associated policies and procedures and applicable law, and comply with the conditions in each of the exemptive relief orders received, which, in the case of cross-trading, requires additional periodic reporting to the Ontario Securities Commission. The standing instructions also require that investment decisions in respect of these transactions (a) are free from any influence by an entity related to Fidelity and without taking into account any consideration relevant to an entity related to Fidelity; (b) represent the business judgment of Fidelity uninfluenced by considerations other than the best interests of the Fund; (c) comply with the applicable policies and procedures of Fidelity; and (d) achieve a fair and reasonable result for the Fund.

# Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period end of the years shown. This information is derived from the Fund's audited annual and/or unaudited semi-annual financial statements. Please see the front page for information about how you can obtain the Fund's annual or semi-annual financial statements.

Trading expense ratio <sup>G</sup>	.04%	.05%	.05%	.07%	.12%
Portfolio turnover rate <sup>H</sup>	55.12%	60.76%	63.40%	83.96%	98.43%
Net asset value per security, end of period	\$ 14.8993	\$ 13.0894	\$ 12.0792	\$ 12.8748	\$ 9.9830

<sup>A</sup> For the period November 1, 2019 (inception date) to June 30, 2020.

<sup>B</sup> This information is derived from the Fund's audited annual and/or unaudited interim financial statements. The net assets attributable to securityholders per security presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to financial statements.

<sup>C</sup> Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per security.

<sup>D</sup> Distributions were paid in cash or reinvested in additional securities of the Fund, or both, and excludes any applicable distributions of management fee reduction to securityholders. Distributions are presented based on management's best estimate of the tax character.

<sup>E</sup> This information is provided as at period end of the year shown.

<sup>F</sup> Prior period amounts may have been adjusted.

<sup>G</sup> The trading expense ratio represents total commissions, other portfolio transaction costs and dividends and interest expense on securities sold short expressed as an annualized percentage of daily average net asset value during the period, including the Fund's pro-rata share of estimated trading costs incurred in any underlying investment fund, if applicable.

<sup>H</sup> The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities owned by the Fund, excluding short-term securities. The portfolio turnover rate includes any proceeds from a short sale in the value of sales of securities and the cost of covering a short sale in the value of purchases of securities. For periods greater than six months, but less than a full fiscal year, the portfolio turnover rate is annualized. The portfolio turnover rate excludes any adjustment for in-kind transactions.

# Fidelity Canadian Fundamental Equity Multi-Asset Base Fund

## Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

### Year-by-Year Returns

The following bar chart shows the Fund's annual performance for each of the years shown, and illustrates how the Fund's performance was changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

*Commencement of Operations is November 13, 2019*

### Annual Compound Returns

This table shows the Fund's historical annual compound total returns for the periods indicated, compared with a broad-based and the Fund's benchmark, the S&P/TSX Capped Composite Index, as described below.

Average Annual Total Returns	Past 1 year	Past 3 years	Since Inception
Series O	16.1%	8.1%	11.6%
S&P/TSX Capped Composite Index	12.1%	6.0%	9.0%

A discussion of Fund performance can be found in the Results of Operations section of this report.

The S&P/TSX Composite Index is an index of stocks generally considered to represent the Canadian equity market. The S&P/TSX Capped Composite Index is the same as the S&P/TSX Composite Index except it is adjusted quarterly so that no single stock has a relative weight in the Index greater than 10.0%.

Fidelity's mutual funds are sold by registered Investment Professionals. Each Fund has a simplified prospectus, which contains important information on the Fund, including its investment objective, purchase options, and applicable charges. Please obtain a copy of the prospectus, read it carefully, and consult your Investment Professional before investing. As with any investment, there are risks to investing in mutual funds. There is no assurance that any Fund will achieve its investment objective, and its net asset value, yield, and investment return will fluctuate from time to time with market conditions. Investors may experience a gain or loss when they sell their securities in any Fidelity Fund. Fidelity Global Funds may be more volatile than other Fidelity Funds as they concentrate investments in one sector and in fewer issuers; no single Fund is intended to be a complete diversified investment program. Past performance is no assurance or indicator of future returns. There is no assurance that either Fidelity Canadian Money Market Fund, Fidelity Canadian Money Market Investment Trust, Fidelity U.S. Money Market Fund or Fidelity U.S. Money Market Investment Trust will be able to maintain its net asset value at a constant amount. The breakdown of Fund investments is presented to illustrate the way in which a Fund may invest, and may not be representative of a Fund's current or future investments. A Fund's investments may change at any time.
