**Annual Management
Report of Fund
Performance**
March 31, 2024

Caution Regarding Forward-looking Statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Annual Management Report of Fund Performance as at March 31, 2024

Fidelity Global Financial Services Fund

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements for the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our website at www.fidelity.ca or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure relating to the investment fund.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: Fidelity Global Financial Services Fund (Fund) aims to achieve long-term capital growth by investing primarily in equity securities of companies anywhere in the world that provide financial services.

Strategies: When buying and selling securities for the Fund, the portfolio manager examines each company's potential for success in light of its current financial condition and industry position, as well as economic and market conditions. The portfolio manager considers factors like growth potential, earnings estimates and quality of management. The Fund may invest in small, medium, and large-sized companies.

Risk

The risks associated with investing in this Fund remain as discussed in the prospectus. Any changes to the Fund over the period have not affected the overall level of risk of the Fund.

The Fund is suitable for long-term investors who want to gain exposure to financial services companies anywhere in the world, and can handle the volatility of returns generally associated with equity investments. The Fund is not an appropriate investment for investors with a short-term investment horizon. To invest in the Fund, investors should be willing to accept a medium to high level of risk. The suitability of the investment has not changed from what has been disclosed in the prospectus.

Results of Operations

Fidelity Global Financial Services Fund, Series B, returned 27.0%, after fees and expenses, for the one-year period ended March 31, 2024. The net returns of the other series of this Fund are similar to those of Series B, except for differences attributable to expense structures. During the review period, global equities, as represented by the MSCI World Index, returned 25.1% (in Canadian dollar terms).

Market overview:

Global equities, as broadly measured by the MSCI World Index, returned 25.1% in Canadian dollar terms and 25.1% in U.S. dollar terms, for the one-year period ended March 31, 2024.

Global equities advanced during the review period, as economic expansion, and the slowing pace of inflation in some countries provided a mostly favourable backdrop. Following continued tightening of monetary policies in major developed market economies throughout 2022 and for most of 2023, investor sentiment shifted in the fourth quarter of 2023 to a view that interest rates had peaked, and policymakers may cut rates in 2024. Equity market gains were partly fueled by select firms within the information technology and communication services sectors in the U.S., largely due to market exuberance surrounding artificial intelligence. In Europe, several large-capitalisation companies across the luxury goods, pharmaceuticals, and technology sectors supported equity markets. Japanese equities also rose, supported by decline in the value of the yen which bolstered exports, as well as due to corporate governance reforms that have boosted shareholder returns through increased share buybacks and dividends. From a regional perspective, while some global equity markets advanced to hit all-time highs, investors were more cautious towards Chinese equities due to the country's weaker than expected economic growth amid uncertainty surrounding the health of its property and banking sectors.

Factors affecting performance:

The Fund's benchmark, the MSCI ACWI (All Country World Index) Financials Index, returned 28.1% (in Canadian dollar terms) for the review period.

The Fund underperformed its benchmark over the review period due to its investments in the financial services industry. In this industry, investments in Taiwan-based specialized finance company Chailase Holding and France-based payment and transactional services company Worldline SA, detracted from relative returns. Investments in the insurance industry also detracted from relative performance. In this industry, an investment in Hong Kong-based multinational insurance company AIA Group, and out-of-benchmark exposure to Australia-based general insurance company Steadfast Group, detracted from relative returns. Among other industries, investments in Switzerland-based private banking corporation Julius Baer Group, and U.K.-based banking and insurance holding company NatWest Group, detracted from relative returns.

In contrast, certain investments in the capital markets industry, and in the banking industry, contributed to relative returns. In the capital markets industry, out-of-benchmark exposure to Brazil-based investment management company XP Inc., and an investment in U.S.-based global alternative investment manager Ares Management, contributed to relative returns. In the banking industry, investments in U.S.-based investment bank JPMorgan Chase & Co., and U.S.-based financial services company Wells Fargo & Co., also contributed to relative returns. Among other industries, an investment in U.K.-based private equity and venture capital company 3i Group contributed to relative returns.

At the end of the review period, the Fund had no exposure to Worldline SA, AIA Group, Julius Baer Group, NatWest and XP Inc.

Portfolio changes:

During the review period, the Fund's allocations to the financial services industry and the professional services industry were increased. In the financial services industry, the portfolio

Fidelity Global Financial Services Fund

Management Discussion of Fund Performance – continued

managers increased exposure to U.S.-based digital payment technology company Visa for its attractive long-term growth outlook. In the professional services industry, a new position was initiated in U.S.-based management consulting company FTI Consulting.

In contrast, the Fund's exposure to the banking industry and the broadline retail industry was reduced. In the banking industry, the portfolio managers exited a position in U.S.-based multinational investment bank and financial services company Bank of America. In the broadline retail industry, the managers exited their position in Argentina-based e-commerce company Mercado Libre, to seek investment opportunities with more potential elsewhere.

At the end of the review period, the Fund had its largest absolute exposure to the banking industry, followed by the capital markets industry. The Fund diverged most from its benchmark's industry weightings by having a larger allocation to the capital markets industry and a smaller allocation to the banking industry.

Recent Developments

Portfolio managers Mac Elatab and Terry Raven look to invest in quality businesses at the right valuation. The investment approach combines bottom-up stock picking with top-down country and sector analysis. The focus is on strong businesses as well as companies with improving fundamentals that potentially translate into higher return on equity. The team then assesses valuations to determine whether these are factored into the stock's price and identify long-term winners. Top-down considerations (such as the interest rate cycle, the health of the sovereign as well as penetration potential) play an important role as banks' and other financials' prospects are heavily tied to the economy, and macroeconomic inputs are relevant to the investment thesis.

Effective September 19, 2023, Anne Bell of Mississauga, Ontario, became a member of the Independent Review Committee (IRC).

Related Party Transactions

Manager and Portfolio Adviser

The Fund is managed by Fidelity Investments Canada ULC (Fidelity). Fidelity is part of a broader collection of companies collectively known as Fidelity Investments.

Fidelity provides or arranges for the provision of all general management and administrative services required by the Fund in its day-to-day operations, bookkeeping, record-keeping and other administrative services for the Fund.

Fidelity is the portfolio adviser to the Fund and it provides investment advisory services to the Fund. Fidelity has entered into sub-advisory agreements with a number of entities including FIL Limited to provide investment advice with respect to all or a portion of the investments of the Fund. The sub-advisors arrange for acquisition and disposition of portfolio investments, including all necessary brokerage arrangements. The Fund pays Fidelity a monthly management and advisory fee for their services, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity management and advisory fees of \$735,000 for the period ended March 31, 2024.

Administration Fee

Fidelity charges the Fund a fixed administration fee in place of certain variable expenses. Fidelity, in turn, pays all of the operating expenses of the Fund, other than certain specified fund costs (e.g. the fees and expenses of the Independent Review Committee, taxes, brokerage commissions and interest charges). The Fund pays an annual rate, which is calculated on a tiered basis, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity administration fees of \$81,000 for the period ended March 31, 2024.

Brokerage Commissions

The Fund may place a portion of its portfolio transactions with brokerage firms which are affiliates of Fidelity, provided it determines that these affiliates' trade execution abilities and costs are comparable to those of non-affiliated, qualified brokerage firms, on an execution-only basis. Commissions paid to brokerage firms that are affiliates of Fidelity Investments were \$0 for the period ended March 31, 2024. Fidelity receives standing instructions from the IRC in respect of policies and procedures governing best execution of transactions with affiliates, which includes brokers affiliated to Fidelity Investments, at least once per year.

Independent Review Committee, Cross-Trading and In specie Transactions

Independent Review Committee

Fidelity has established an independent review committee (IRC) that acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting conflict of interest matters referred to it by Fidelity. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available at www.fidelity.ca or at the securityholder's request at no cost by contacting Fidelity, using the contact information available on the final page of this document.

Cross-Trading and In specie Transactions

The Fund received the approval and standing instructions from the IRC in order to:

- (i) engage in cross-trading, which is a form of interfund trading. A cross-trade occurs when the Fund purchases or sells portfolio securities from or to another Fund, a U.S. fund or a separately managed account, through a broker;
- (ii) permit the Fund, in certain circumstances, to purchase and redeem Fund securities in consideration for securities rather than cash of another investment fund not governed by NI 81-102, or a separately managed account, managed by Fidelity.

For each of the transactions in (i) and (ii) above, the IRC's standing instructions require Fidelity to act in accordance with its associated policies and procedures and applicable law, and comply with the conditions in each of the exemptive relief orders received, which, in the case of cross-trading, requires additional periodic reporting to the Ontario Securities Commission. The standing instructions also require that investment decisions in respect of these transactions (a) are free from any influence by an entity related to Fidelity and without taking into account any consideration relevant to an entity related to Fidelity; (b) represent the business judgment of Fidelity uninfluenced by considerations other than the best interests of the Fund; (c)

comply with the applicable policies and procedures of Fidelity; and (d) achieve a fair and reasonable result for the Fund.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period end of the years shown. This information is derived from the Fund's audited annual and/or unaudited semi-annual financial statements. Please see the front page for information about how you can obtain the Fund's annual or semi-annual financial statements.

Financial Highlights Footnotes

- ^A This information is derived from the Fund's audited annual and/or unaudited interim financial statements. The net assets attributable to securityholders per security presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to financial statements.
- ^B Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per security.
- ^C Distributions were paid in cash or reinvested in additional securities of the Fund, or both, and excludes any applicable distributions of management fee reduction to securityholders. Distributions are presented based on management's best estimate of the tax character.
- ^D This information is provided as at period end of the year shown.
- ^E Prior period amounts may have been adjusted.
- ^F Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset values during the period, including the Fund's pro-rata share of estimated expenses incurred in any underlying investment fund, if applicable.
- ^G Effective November 1, 2014, the manager of the Fund has waived a portion of its administration fee and as of the date of the MRFP has continued to provide the Fund with such waivers. The manager may terminate the waiver at any time, at its sole discretion. It is not known when such waivers will be terminated.
- ^H The trading expense ratio represents total commissions, other portfolio transaction costs and dividends and interest expense on securities sold short expressed as an annualized percentage of daily average net asset value during the period, including the Fund's pro-rata share of estimated trading costs incurred in any underlying investment fund, if applicable.
- ^I The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities owned by the Fund, excluding short-term securities. The portfolio turnover rate includes any proceeds from a short sale in the value of sales of securities and the cost of covering a short sale in the value of purchases of securities. For periods greater than six months, but less than a full fiscal year, the portfolio turnover rate is annualized. The portfolio turnover rate excludes any adjustment for in-kind transactions.

Management and Advisory Fees

Fidelity serves as manager and investment advisor of the Fund. The Fund pays Fidelity a monthly management and advisory fee for its services, based on the net asset value of each Series, calculated daily and payable monthly. Fidelity uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund securities, as well as for the general investment management expenses. Dealer compensation represents cash commissions paid by Fidelity to registered dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by Fidelity during the period. For new Funds or Series the amounts presented may not be indicative of longer term operating periods.

	Management Fees (%)	Dealer Compensation (%)	Investment management, administration and other (%)
Series A	2.000	23.17	76.83
Series B	1.850	54.05	45.95
Series F	0.850	-	100.00

Fidelity Global Financial Services Fund

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for each of the years shown, and illustrates how the Fund's performance was changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

Annual Compound Returns

This table shows the Fund's historical annual compound total returns for the periods indicated, compared with a broad-based index, the MSCI World Index, and the Fund's benchmark, MSCI ACWI (All Country World Index) Financials Index, as described below.

Average Annual Total Returns	Past 1 year	Past 3 years	Past 5 years	Past 10 years
Series A	26.7%	8.0%	9.2%	8.7%
Series B	27.0%	8.3%	9.4%	8.9%
Series F	28.5%	9.5%	10.7%	10.2%
Series O	29.9%	10.8%	12.0%	11.5%
MSCI World Index	25.1%	11.3%	12.4%	11.6%
MSCI ACWI (All Country World Index) Financials Index	28.1%	11.0%	9.5%	8.8%

A discussion of Fund performance can be found in the Results of Operations section of this report. Effective September 1, 2017, the Fund changed its benchmark to the MSCI ACWI (All Country World Index) Financials Index from the MSCI ACWI (All Country World Index) Financials and Real Estate Index Blend. Prior to September 1, 2016, the Fund's benchmark was the MSCI ACWI (All Country World Index) Financials Index, which included real estate as a subsector. As at September 1, 2016, real estate became a separate industry category as per the Global Industry Classification Standard (GICS®) and was removed as a component of the MSCI ACWI (All Country World Index) Financials Index. Fidelity elected to keep real estate as a

Fidelity Global Financial Services Fund

Past Performance – continued

component of the Fund's benchmark, meaning from September 1, 2016, to August 31, 2017, the Fund was benchmarked against a custom benchmark, the MSCI ACWI (All Country World Index) Financials and Real Estate Index Blend. On September 1, 2017, the Fund reverted to using the MSCI ACWI (All Country World Index) Financials Index as its benchmark, which is now a pure financials index. The change was implemented to create greater alignment to the clients and peers – representing a move that reflects industry standards. There will be no change in investment philosophy and process. The MSCI ACWI (All Country World Index) Financials Index captures large- and mid-cap representation across 23 developed markets and 23 emerging-market countries. All securities in the Index are classified in the financials, sector as per GICS®. The MSCI World Index is a market-capitalization-weighted index composed of companies, representative of the market structure of developed market countries in North America, Europe, and the Asia/Pacific region. Each series of the Fund will have different returns due to differences in management fees and expenses.

Total Fund Net Assets \$61,790,000

Where applicable, the information in the above tables includes the Fund's pro-rata share of the investment in any Fidelity managed underlying fund.

Comparative balances, as applicable, have been reclassified from country of incorporation to country of risk to align with current period presentation.

All tables within the Summary of Investment Portfolio section, except the Top Issuers table, contain audited annual information.

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. The most recent annual report, semi-annual report, quarterly report, fund facts document or simplified prospectus for the investment fund and/or underlying fund is available at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments Canada ULC, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our web site at www.fidelity.ca or SEDAR+ at www.sedarplus.ca.

Fidelity's mutual funds are sold by registered Investment Professionals. Each Fund has a simplified prospectus, which contains important information on the Fund, including its investment objective, purchase options, and applicable charges. Please obtain a copy of the prospectus, read it carefully, and consult your Investment Professional before investing. As with any investment, there are risks to investing in mutual funds. There is no assurance that any Fund will achieve its investment objective, and its net asset value, yield, and investment return will fluctuate from time to time with market conditions. Investors may experience a gain or loss when they sell their securities in any Fidelity Fund. Fidelity Global Funds may be more volatile than other Fidelity Funds as they concentrate investments in one sector and in fewer issuers; no single Fund is intended to be a complete diversified investment program. Past performance is no assurance or indicator of future returns. There is no assurance that either Fidelity Canadian Money Market Fund, Fidelity Canadian Money Market Investment Trust, Fidelity U.S. Money Market Fund or Fidelity U.S. Money Market Investment Trust will be able to maintain its net asset value at a constant amount. The breakdown of Fund investments is presented to illustrate the way in which a Fund may invest, and may not be representative of a Fund's current or future investments. A Fund's investments may change at any time.
