

Fidelity Global Fund

Annual Management Report of Fund Performance March 31, 2024

Caution Regarding Forward-looking Statements

Certain portions of this report, including, but not limited to, "Results of Operations" and "Recent Developments", may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement.

Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Annual Management Report of Fund Performance as at March 31, 2024

Fidelity Global Fund

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements for the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our website at www.fidelity.ca or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure relating to the investment fund.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: Fidelity Global Fund (Fund) aims to achieve long-term capital growth by investing primarily in equity securities of companies anywhere in the world.

Strategies: When buying and selling securities for the Fund, the portfolio manager may examine a company's potential for success in light of its current financial condition and its industry position, as well as economic and market conditions. Factors considered may also include growth potential, earnings estimates and quality of management. The portfolio manager typically diversifies investments across different countries and regions. The Fund may invest in small, medium, and large-sized companies.

Risk

The risks associated with investing in this Fund remain as discussed in the prospectus. Any changes to the Fund over the period have not affected the overall level of risk of the Fund.

The Fund is suitable for medium- to long-term investors who want to gain global equity exposure, and can handle the volatility of returns generally associated with equity investments. The Fund is not an appropriate investment for investors with a short-term investment horizon. To invest in the Fund, investors should be willing to accept a medium level of risk. The suitability of the investment has not changed from what has been disclosed in the prospectus.

Results of Operations

Fidelity Global Fund, Series B, returned 20.6%, after fees and expenses, for the one-year period ended March 31, 2024. The net returns of the other series of this Fund are similar to those of Series B, except for differences attributable to expense structures. During the review period, global equities, as represented by the MSCI ACWI (All Country World Index) Index, returned 23.2% (in Canadian dollar terms).

Market overview:

Global equities, as broadly measured by the MSCI ACWI (All Country World Index), returned 23.2% in Canadian dollar terms and 23.2% in U.S. dollar terms, for the one-year period ended March 31, 2024.

Global equities advanced during the review period, as economic expansion, and the slowing pace of inflation in some countries provided a mostly favourable backdrop. Following continued tightening of monetary policies in major developed market economies throughout 2022 and for most of 2023, investor sentiment shifted in the fourth quarter of 2023 to a view that interest rates had peaked, and policymakers may cut rates in 2024. Equity market gains were partly fueled by select firms within the information technology and communication services sectors in the U.S., largely due to market exuberance surrounding artificial intelligence. In Europe, several large-capitalisation companies across the luxury goods, pharmaceuticals, and technology sectors supported equity markets. Japanese equities also rose, supported by decline in the value of the yen which aided exports, as well as due to corporate governance reforms that have boosted shareholder returns through increased share buybacks and dividends. From a regional perspective, while some global equity markets advanced to hit all-time highs, investors were more cautious towards Chinese equities due to the country's weaker than expected economic growth amid uncertainty surrounding the health of its property and banking sectors.

Factors affecting performance:

The Fund underperformed its benchmark, primarily due to investments in certain stocks in the financials sector. In the sector, investments in U.K.-based insurance firm Prudential, and India-based banking and financial services firm HDFC Bank, detracted from relative returns. In addition, higher-than-benchmark exposure to, and investments in, the utilities sector detracted from relative returns. In this sector, investments in Denmark-based energy firm Orsted, and U.K.-based energy firm SSE, both detracted from relative returns. In other sectors, lack of exposure to a U.S.-based semiconductor firm, to a U.S.-based media and entertainment firm, and to a U.S.-based pharmaceutical firm, all detracted from relative returns.

In contrast, lower-than-benchmark exposure to the consumer staples sector contributed to relative returns. In the sector, lack of exposure to a Switzerland-based beverage firm, and an investment in U.S.-based agribusiness and food firm Bunge Limited, contributed to relative returns. Investments in, and higher-than-benchmark exposure to, the consumer discretionary sector also contributed to relative returns. In the sector, lack of exposure to a U.S.-based automotive and clean energy firm, and an investment in Italy-based automotive manufacturer Stellantis, both contributed to relative returns. In other sectors, lower-than-benchmark exposure to U.S.-based technology firm Apple, an investment in U.S.-based technology firm Dell Technologies, and an investment in U.S.-based capital goods firm General Electric, all contributed to relative returns.

At the end of the review period, the Fund had no exposure to Bunge Limited or Apple.

Portfolio changes:

During the review period, the Fund's exposure to the consumer discretionary and communication services sectors was increased. In the consumer discretionary sector, the portfolio manager increased exposure to U.S.-based e-commerce firm Amazon.com. In the communication services sector, a position was initiated in U.S.-based telecommunication services firm T-Mobile. The portfolio manager believes these companies have good investment growth potential.

In contrast, exposure to the health care and utilities sectors was decreased as the portfolio manager sought investment growth opportunities which they believed to have more potential

Fidelity Global Fund Management Discussion of Fund Performance – continued

elsewhere. In the health care sector, the portfolio manager exited a position in U.S.-based pharmaceutical firm Bristol-Myers Squibb. In the utilities sector, a position was exited in Germany-based energy firm RWE.

At the end of the review period, the Fund had its largest absolute exposure to the information technology sector, followed by the financials sector. The Fund diverged most from its benchmark's sector weightings by having more exposure to the financials sector and less exposure to the consumer staples sector.

Recent Developments

Portfolio manager Jeremy Podger follows an investment approach that aims to uncover investment opportunities in one of the three areas of opportunity: change, value or franchise. The portfolio manager believes firms in the change category offer the potential for a fundamental shift in value, with catalysts linked to near-term restructuring, merger/acquisition or spin-off activity. In the portfolio manager's opinion, value companies may have the ability to deliver earnings growth that exceeds market expectations, potentially leading to a change in market growth expectations, while franchise businesses may be firms with a dominant industry position, strong growth, strong cash flows, and good pricing power.

During the review period the portfolio manager continued to favour the health care sector, investing in companies undergoing steady growth through their exposure to attractive target markets. Such companies include health care equipment and services providers, medical device makers, and biotechnology firms. In the portfolio manager's view, these companies should be able to preserve profitability in an inflationary environment, owing to their high cash-flow yields. The Fund allocated less than the benchmark to the consumer staples sector, due to pricing and valuation concerns. The Fund also maintained an overweight position in the utilities sector, and a keen focus on renewable energy firms. The portfolio manager aimed to invest in businesses that they believe will remain well positioned to benefit from the energy transition theme and have attractive network exposure. In financials, the portfolio manager aimed to invest in what they believe to be high-quality banking franchises with strong balance sheets, credit quality and prudent underwriting practices, and certain insurance majors with strong pricing power. Within the information technology sector, the portfolio manager focused on what they consider value opportunities while investing in mature cash-flow generating businesses.

Effective March 31, 2024, Jeremy Podger ceased to be a Portfolio Manager, and Patrice Quirion was added as a Portfolio Manager.

Effective September 19, 2023, Anne Bell of Mississauga, Ontario, became a member of the Independent Review Committee (IRC).

Related Party Transactions

Manager and Portfolio Adviser

The Fund is managed by Fidelity Investments Canada ULC (Fidelity). Fidelity is part of a broader collection of companies collectively known as Fidelity Investments.

Fidelity provides or arranges for the provision of all general management and administrative services required by the Fund in its day—to—day operations, bookkeeping, record—keeping and other administrative services for the Fund.

Fidelity is the portfolio adviser to the Fund and it provides investment advisory services to the Fund. Fidelity has entered into sub-advisory agreements with a number of entities including FIL Limited to provide investment advice with respect to all or a portion of the investments of the Fund. The sub-advisors arrange for acquisition and disposition of portfolio investments, including all necessary brokerage arrangements. The Fund pays Fidelity a monthly management and advisory fee for their services, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity management and advisory fees of \$9,900,000 for the period ended March 31, 2024.

Administration Fee

Fidelity charges the Fund a fixed administration fee in place of certain variable expenses. Fidelity, in turn, pays all of the operating expenses of the Fund, other than certain specified fund costs (e.g. the fees and expenses of the Independent Review Committee, taxes, brokerage commissions and interest charges). The Fund pays an annual rate, which is calculated on a tiered basis, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity administration fees of \$937,000 for the period ended March 31, 2024.

Brokerage Commissions

The Fund may place a portion of its portfolio transactions with brokerage firms which are affiliates of Fidelity, provided it determines that these affiliates' trade execution abilities and costs are comparable to those of non—affiliated, qualified brokerage firms, on an execution—only basis. Commissions paid to brokerage firms that are affiliates of Fidelity Investments were \$0 for the period ended March 31, 2024. Fidelity receives standing instructions from the IRC in respect of policies and procedures governing best execution of transactions with affiliates, which includes brokers affiliated to Fidelity Investments, at least once per year.

Independent Review Committee, Cross-Trading and In specie Transactions

Independent Review Committee

Fidelity has established an independent review committee (IRC) that acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting conflict of interest matters referred to it by Fidelity. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available at www.fidelity.ca or at the securityholder's request at no cost by contacting Fidelity, using the contact information available on the final page of this document.

Cross-Trading and In specie Transactions

The Fund received the approval and standing instructions from the IRC in order to:

- (i) engage in cross-trading, which is a form of interfund trading. A cross-trade occurs when the Fund purchases or sells portfolio securities from or to another Fund, a U.S. fund or a separately managed account, through a broker;
- (ii) permit the Fund, in certain circumstances, to purchase and redeem Fund securities in consideration for securities rather than cash of another investment fund not governed by NI 81-102, or a separately managed account, managed by Fidelity.

For each of the transactions in (i) and (ii) above, the IRC's standing instructions require Fidelity to act in accordance with its associated policies and procedures and applicable law, and comply with the conditions in each of the exemptive relief orders received, which, in the case of cross-trading, requires additional periodic reporting to the Ontario Securities Commission. The standing instructions also require that investment decisions in respect of these transactions (a) are free from any influence by an entity related to Fidelity and without taking into account any consideration relevant to an entity related to Fidelity; (b) represent the business judgment of Fidelity uninfluenced by considerations other than the best interests of the Fund; (c) comply with the applicable policies and procedures of Fidelity; and (d) achieve a fair and reasonable result for the Fund.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period end of the years shown. This information is derived from the Fund's audited annual and/or unaudited semi-annual financial statements. Please see the front page for information about how you can obtain the Fund's annual or semi-annual financial statements.

Financial Highlights Footnotes

- A This information is derived from the Fund's audited annual and/or unaudited interim financial statements. The net assets attributable to securityholders per security presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to financial statements.
- B Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per security.
- Distributions were paid in cash or reinvested in additional securities of the Fund, or both, and excludes any applicable distributions of management fee reduction to securityholders. Distributions are presented based on management's best estimate of the tax character.
- ^D This information is provided as at period end of the year shown.
- Prior period amounts may have been adjusted.
- Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset values during the period, including the Fund's pro-rata share of estimated expenses incurred in any underlying investment fund, if applicable.
- Effective November 1, 2014, the manager of the Fund has waived a portion of its administration fee and as of the date of the MRFP has continued to provide the Fund with such waivers. The manager may terminate the waiver at any time, at its sole discretion. It is not known when such waivers will be terminated.
- He trading expense ratio represents total commissions, other portfolio transaction costs and dividends and interest expense on securities sold short expressed as an annualized percentage of daily average net asset value during the period, including the Fund's pro-rata share of estimated trading costs incurred in any underlying investment fund, if applicable.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities owned by the Fund, excluding short-term securities. The portfolio turnover rate includes any proceeds from a short sale in the value of sales of securities and the cost of covering a short sale in the value of purchases of securities. For periods greater than six months, but less than a full fiscal year, the portfolio turnover rate is annualized. The portfolio turnover rate excludes any adjustment for in-kind transactions.
- Effective October 1, 2015, the manager of the Fund has waived a portion of its administration fee and as of the date of the MRFP has continued to provide the Fund with such waivers. The manager may terminate the waiver at any time, at its sole discretion. It is not known when such waivers will be terminated.
- K Effective September 20, 2016, the manager of the Fund has waived a portion of its administration fee and as of the date of the MRFP has continued to provide the Fund with such waivers. The manager may terminate the waiver at any time, at its sole discretion. It is not known when such waivers will be terminated.

Management and Advisory Fees

Fidelity serves as manager and investment advisor of the Fund. The Fund pays Fidelity a monthly management and advisory fee for its services, based on the net asset value of each Series, calculated daily and payable monthly. Fidelity uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund securities, as well as for the general investment management expenses. Dealer compensation represents cash commissions paid by Fidelity to registered dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by Fidelity during the period. For new Funds or Series the amounts presented may not be indicative of longer term operating periods.

Fidelity Global Fund

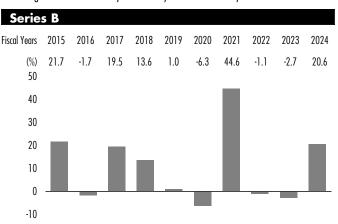

Past Performance

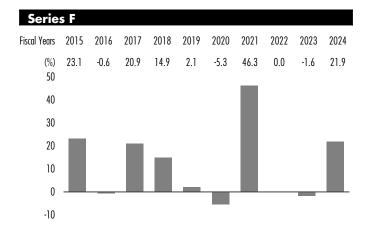

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

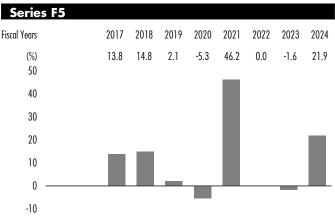

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for each of the years shown, and illustrates how the Fund's performance was changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

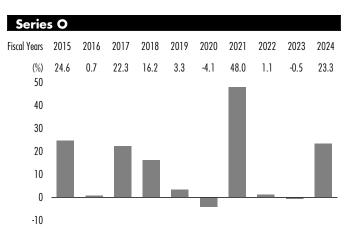

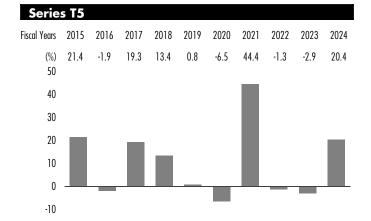

Commencement of Operations is September 16, 2016

Fidelity Global Fund Past Performance – continued

Annual Compound Returns

This table shows the Fund's historical annual compound total returns for the periods indicated, compared with the Fund's benchmark, the MSCI ACWI (All Country World Index) Index, as described below.

	Past 1	Past 3	Past 5	Past 10	Since
Average Annual Total Returns	year	years	years	years	Inception
Series A	20.2%	4.8%	9.2%	9.7%	n/a
Series B	20.6%	5.1%	9.5%	9.9%	n/a
Series F	21.9%	6.3%	10.7%	11.2%	n/a
Series F5	21.9%	6.2%	10.7%	n/a	11.1%
Series F8	21.9%	6.3%	10.7%	n/a	11.1%
Series O	23.3%	7.4%	12.0%	12.5%	n/a
Series T5	20.4%	4.9%	9.3%	9.7%	n/a
Series T8	20.2%	4.7%	9.1%	9.6%	n/a
Series S5	20.6%	5.1%	9.5%	10.0%	n/a
Series S8	20.5%	5.1%	9.4%	9.9%	n/a
MSCI ACWI (All Country World Index) Index	23.2%	9.6%	11.2%	10.9%	11.2%

A discussion of Fund performance can be found in the Results of Operations section of this report. The MSCI ACWI (All Country World Index) Index is an unmanaged, free float-adjusted, market capitalization-weighted index composed of stocks of companies located in countries throughout the world. It is designed to measure equity market performance in global developed and emerging markets. Each series of the Fund will have different returns because of differences in management fees and expenses.

Summary of Investment Portfolio as at March 31, 2024

Sector Mix		
	% of Fund's Net Assets as at March 31, 2024	% of Fund's Net Assets as at March 31, 2023

Fidelity's mutual funds are sold by registered Investment Professionals. Each Fund has a simplified prospectus, which contains important information on the Fund, including its investment objective, purchase options, and applicable charges. Please obtain a copy of the prospectus, read it carefully, and consult your Investment Professional before investing. As with any investment, there are risks to investing in mutual funds. There is no assurance that any Fund will achieve its investment objective, and its net asset value, yield, and investment return will fluctuate from time to time with market conditions. Investors may experience a gain or loss when they sell their securities in any Fidelity Fund. Fidelity Global Funds may be more volatile than other Fidelity Funds as they concentrate investments in one sector and in fewer issuers; no single Fund is intended to be a complete diversified investment program. Past performance is no assurance or indicator of future returns. There is no assurance that either Fidelity Canadian Money Market Fund, Fidelity Canadian Money Market Investment Trust, Fidelity U.S. Money Market Fund or Fidelity U.S. Money Market Investment Trust will be able to maintain its net asset value at a constant amount. The breakdown of Fund investments is presented to illustrate the way in which a Fund may invest, and may not be representative of a Fund's current or future investments. A Fund's investments may change at any time.
