## Caution Regarding Forward-looking Statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

## Management Discussion of Fund Performance

### Results of Operations

Fidelity American Disciplined Equity Fund (Fund), Series B, returned 14.0%, after fees and expenses, for the six-month period ended December 31, 2024. The net returns of the other series of the Fund are similar to those of Series B, except for differences attributable to expense structures. During the review period, U.S. equities, as represented by the S&P 500 Index, returned 14.0% (in Canadian dollar terms).

#### Market overview:

U.S. equities, as measured by the S&P 500 Index, returned 14.0% in Canadian dollar terms and 8.4% in U.S. dollar terms, for the six-month period ended December 31, 2024.

U.S. equities rose over the review period as expectations of monetary policy easing and continued corporate earnings growth supported investor sentiment. An anticipation of further tax cuts, expansionary fiscal policy, and possibilities of a protectionist trade stance further supported equity markets. The consumer discretionary and financials sectors gained the most from these developments. Additionally, cyclical sectors, including real estate and industrials, also generated positive returns. Investor optimism in the artificial intelligence initially boosted gains in the information technology and communication services sectors but faced volatility in the latter part of the review period due to concerns about stretched valuations. Defensive sectors, such as utilities and consumer staples, also gained as investors looked for stability amidst ongoing market volatility. The U.S. economy exhibited healthy growth, expanding by an annualized rate of 2.8% in the third quarter, supported by robust consumer and government spending. However, geopolitical risks, mixed economic signals in the U.S., and the U.S. Federal Reserve's (the Fed) adoption of a more cautious approach to its monetary policy easing cycle introduced some volatility. Over the period under review, the Fed reduced its benchmark interest rate (the Fed Funds Rate) thrice in subsequent meetings, from 5.5% to 5.0% in the September meeting, from 5.0% to 4.75% in the November meeting, and from 4.75% to 4.5% in the December meeting. U.S. inflation, as measured by the consumer price index, increased to 2.9% in December 2024, however headline inflation remains lower than the reported 3.0% in June 2024.

#### Factors affecting performance:

The Fund performed in line with its benchmark, the S&P 500 Index, after fees and expenses, primarily due to exposure to certain stocks in the information technology sector, including U.S.-based semiconductors and semiconductor equipment firm Marvell Technology and U.S.-based software and services firm ServiceNow. Exposure to certain stocks in the financials sector, including U.S.-based banking firm Wells Fargo & Co. and U.S.-based financial services firm Apollo Global Management, also contributed to relative returns.

In contrast, investments in certain stocks in the health care sector, such as U.S.-based biotechnology firm Moderna and U.S.-based pharmaceuticals firm Eli Lilly, detracted from relative returns. Investments in certain stocks in the consumer staples sector, including U.S.-based food processing firm Lamb Weston and U.S.-based snacks company Mondelez, also detracted from relative returns. In other sectors, a lack of exposure to a U.S.-based semiconductors and semiconductor equipment firm, along with investments in U.S.-based semiconductors and semiconductor equipment firms NXP Semiconductors and Teradyne detracted from relative returns.

At the end of the review period, the Fund had no exposure to Lamb Weston.

#### Portfolio changes:

During the review period, the Fund's sector exposures were kept relatively close to those of the benchmark. While the Fund is neutrally positioned at the sector level, industry group allocations deviated from those of the benchmark as a by-product of the portfolio management team's stock selection process.

During the period under review, the Fund's allocations to the financial services industry and the technology hardware and equipment industry were increased. In the financial services industry, the portfolio manager initiated a position in U.S.-based asset management firm Blackrock Inc., while in the technology hardware and equipment industry, the portfolio manager increased exposure to U.S.-based technology conglomerate Apple Inc. The portfolio manager believes these companies are attractively valued, with dominant market positions in their industries.

In contrast, the portfolio manager reduced exposure to the semiconductors and semiconductor equipment industry by reducing exposure to U.S.-based semiconductor manufacturer NVIDIA. The portfolio manager also reduced exposure to the banking industry by exiting a position in U.S.-based banking firm JPMorgan Chase and Co., in order to seek other opportunities elsewhere.

At the end of the review period, the technology hardware and equipment industry accounted for the Fund's largest absolute exposure. The Fund deviated most from its benchmark's weightings by having more exposure to the technology hardware and equipment industry and less exposure to the software and services industry.

### Recent Developments

Portfolio manager Chris Lee made some minor adjustments to the sector positioning of the Fund, but continued to take a sector-neutral approach to investing in general. According to the portfolio manager, this approach still allows for meaningfully larger- and smaller-than-benchmark allocations at the industry and individual stock levels. The portfolio management team remains consistent in its investment process, which is designed to deliver a cohesive portfolio. The portfolio manager is working with the team's sector leaders to remain focused on fundamental signals and to identify opportunities that may benefit from a late-cycle growth environment.

#### **Related Party Transactions**

##### **Manager and Portfolio Adviser**

The Fund is managed by Fidelity Investments Canada ULC (Fidelity). Fidelity is part of a broader collection of companies collectively known as Fidelity Investments.

Fidelity provides or arranges for the provision of all general management and administrative services required by the Fund in its day-to-day operations, bookkeeping, record-keeping and other administrative services for the Fund.

Fidelity is the portfolio adviser to the Fund and it provides investment advisory services to the Fund. Fidelity has entered into sub-advisory agreements with a number of entities including Fidelity Management & Research Company LLC, to provide investment advice with respect to all or a portion of the investments of the Fund. The sub-advisors arrange for acquisition and disposition of portfolio investments, including all necessary brokerage arrangements. The Fund pays Fidelity a monthly management and advisory fee for their services, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity management and advisory fees of \$3,046,000 for the period ended December 31, 2024.

##### **Administration Fee**

Fidelity charges the Fund a fixed administration fee in place of certain variable expenses. Fidelity, in turn, pays all of the operating expenses of the Fund, other than certain specified fund costs (e.g. the fees and expenses of the Independent Review Committee, taxes, brokerage commissions and interest charges). The Fund pays an annual rate, which is calculated on a tiered basis, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity administration fees of \$291,000 for the period ended December 31, 2024.

##### **Brokerage Commissions**

The Fund may place a portion of its portfolio transactions with brokerage firms which are affiliates of Fidelity, provided it determines that these affiliates' trade execution abilities and costs are comparable to those of non-affiliated, qualified brokerage firms, on an execution-only basis. Commissions paid to brokerage firms that are affiliates of Fidelity Investments were \$5,000 for the period ended December 31, 2024. Fidelity receives standing instructions from the IRC in respect of policies and procedures governing best execution of transactions with affiliates, which includes brokers affiliated to Fidelity Investments, at least once per year.

#### **Independent Review Committee, Cross-Trading and In specie Transactions**

##### **Independent Review Committee**

Fidelity has established an independent review committee (IRC) that acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting conflict of interest matters referred to it by Fidelity. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available at [www.fidelity.ca](http://www.fidelity.ca) or at the securityholder's request at no cost by contacting Fidelity, using the contact information available on the final page of this document.

##### **Cross-Trading and In specie Transactions**

The Fund received the approval and standing instructions from the IRC in order to:

- (i) engage in cross-trading, which is a form of interfund trading. A cross-trade occurs when the Fund purchases or sells portfolio securities from or to another Fund, a U.S. fund or a separately managed account, through a broker;
- (ii) permit the Fund, in certain circumstances, to purchase and redeem Fund securities in consideration for securities rather than cash of another investment fund not governed by NI 81-102, or a separately managed account, managed by Fidelity.

For each of the transactions in (i) and (ii) above, the IRC's standing instructions require Fidelity to act in accordance with its associated policies and procedures and applicable law, and comply with the conditions in each of the exemptive relief orders received, which, in the case of cross-trading, requires additional periodic reporting to the Ontario Securities Commission. The standing instructions also require that investment decisions in respect of these transactions (a) are free from any influence by an entity related to Fidelity and without taking into account any consideration relevant to an entity related to Fidelity; (b) represent the business judgment of Fidelity uninfluenced by considerations other than the best interests of the Fund; (c) comply with the applicable policies and procedures of Fidelity; and (d) achieve a fair and reasonable result for the Fund.

## Financial Highlights Footnotes

- <sup>A</sup> This information is derived from the Fund's audited annual and/or unaudited interim financial statements. The net assets attributable to securityholders per security presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to financial statements.
- <sup>B</sup> Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per security.
- <sup>C</sup> Distributions were paid in cash or reinvested in additional securities of the Fund, or both, and excludes any applicable distributions of management fee reduction to securityholders. Distributions are presented based on management's best estimate of the tax character.
- <sup>D</sup> Prior period amounts may have been adjusted.
- <sup>E</sup> This information is provided as at period end of the year shown.
- <sup>F</sup> Effective November 1, 2014, the manager of the Fund has waived a portion of its administration fee and as of the date of the MRFP has continued to provide the Fund with such waivers. The manager may terminate the waiver at any time, at its sole discretion. It is not known when such waivers will be terminated.
- <sup>G</sup> Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset values during the period, including the Fund's pro-rata share of estimated expenses incurred in any underlying investment fund, if applicable.
- <sup>H</sup> The trading expense ratio represents total commissions, other portfolio transaction costs and dividends and interest expense on securities sold short expressed as an annualized percentage of daily average net asset value during the period, including the Fund's pro-rata share of estimated trading costs incurred in any underlying investment fund, if applicable.
- <sup>I</sup> The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities owned by the Fund, excluding short-term securities. The portfolio turnover rate includes any proceeds from a short sale in the value of sales of securities and the cost of covering a short sale in the value of purchases of securities. For periods greater than six months, but less than a full fiscal year, the portfolio turnover rate is annualized. The portfolio turnover rate excludes any adjustment for in-kind transactions.
- <sup>J</sup> For the period June 1, 2022 (commencement of sale of securities) to June 30, 2022.

## Management and Advisory Fees

Fidelity serves as manager and investment advisor of the Fund. The Fund pays Fidelity a monthly management and advisory fee for its services, based on the net asset value of each Series, calculated daily and payable monthly. Fidelity uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund securities, as well as for the general investment management expenses. Dealer compensation represents cash commissions paid by Fidelity to registered dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by Fidelity during the period. For new Funds or Series the amounts presented may not be indicative of longer term operating periods.

## Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

### Year-by-Year Returns

The following bar chart shows the Fund's annual performance for each of the years shown, and illustrates how the Fund's performance was changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year. For each Series in the Year-by-Year Returns table below, the most recent returns stated are for the current six month period.
