

Fidelity Canadian Focused Equity Multi-Asset Base Fund

**Semi-Annual
Management Report
of Fund Performance**
September 30, 2024

Caution Regarding Forward-looking Statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Semi-Annual Management Report of Fund Performance as at September 30, 2024

Fidelity Canadian Focused Equity Multi-Asset Base Fund

This semi-annual management report of fund performance contains financial highlights but does not contain the complete semi-annual financial statements for the investment fund. You can get a copy of the semi-annual financial statements at your request, and at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our website at www.fidelity.ca or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure relating to the investment fund.

Management Discussion of Fund Performance

Results of Operations

Securities of this Fund are only available for purchase by other funds and accounts managed or advised by Fidelity, and are not available for public purchase.

Fidelity Canadian Focused Equity Multi-Asset Base Fund, Series O, returned 9.2%, for the six-month period ended September 30, 2024. During the review period, Canadian equities, as represented by the S&P/TSX Capped Composite Index, returned 10.0% (in Canadian dollar terms).

Market overview:

Canadian equities, as measured by the S&P/TSX Composite Index, returned 10.0%, for the six-month period ended September 30, 2024.

Canadian equities rose over the period under review. A favourable global economic backdrop, a steady decline in Canadian and global inflation, and a reduction in the Bank of Canada's (BoC) benchmark interest rate encouraged investors. Strong corporate earnings growth further bolstered investor sentiment, supporting overall market gains. Against this backdrop, materials were the best performing sector, in part due to rising gold prices, as investors sought safe-haven assets amid global uncertainties. Interest rate sensitive sectors, such as financials and real estate rose, reflecting optimism around improved earnings potential due to lower borrowing costs for consumers and businesses. Defensive sectors such as consumer staples and utilities also rose, as investors sought stability in the face of ongoing market volatility. Industrials faced headwinds as supply chain disruptions and slowing global demand weighed on the sector's outlook. Inflation (as measured by the consumer price index) eased to 2.0% in August 2024, down from 2.7% in April 2024. The fall in inflation supported the Bank of Canada's decision to reduce its key interest rate to 4.25%. Additionally, higher government spending and a rebound in business investment contributed to a 2.1% expansion in Canada's economy over the second quarter.

Factors affecting performance:

The Fund's benchmark, the S&P/TSX Capped Composite Index, returned 10.0% during the review period. The Fund underperformed its benchmark, primarily due to a lower-than-benchmark exposure to, and certain investments in, the industrials sector. In the sector, a higher-than-benchmark exposure to Canada-based capital goods firm AtkinsRéalis (previously named SNC-Lavalin Group) and an investment in Canada-based commercial and professional services firm Boyd Group Services detracted from relative returns. In addition, a lower-than-benchmark exposure to and certain investments in and certain investments in the real estate sector detracted from relative returns. In the sector, a lower-than-benchmark exposure to Canada-based real estate management and development firm Colliers International Group and an investment in Canada-based equity REIT firm Boardwalk detracted from relative returns. In other sectors, investments in Canada-based oil and gas exploration and production firm Canadian Natural Resources, and Canada-based e-commerce firm Shopify detracted from relative returns.

In contrast, exposure to certain stocks in the consumer discretionary sector contributed to relative performance. In the sector, an investment in Canada-based consumer discretionary distribution & retail firm Dollarama and having no exposure to Canada-based automobiles and components firm contributed to relative returns. In addition, exposure to certain stocks in the materials sector contributed to relative performance. In the sector, an investment in Canada-based gold firm Agnico-Eagle Mines and having no exposure to Canada-based chemicals firm contributed to relative returns. In other sectors, an investment in Canada-based software and services firm Constellation Software contributed to relative returns.

At the end of the review period, the Fund had no exposure to Boyd Group Services or Colliers International Group.

Portfolio changes:

During the review period, the Fund's exposure to the energy and utilities sectors was increased. In the energy sector, the portfolio manager initiated a position in Canada-based oil and gas storage and transportation firm TC Energy. In the utilities sector, exposure was increased to Canada-based utilities firm Fortis. The portfolio manager believes that these companies have good risk and reward characteristics.

In contrast, exposure to the industrials and information technology sectors was decreased; the portfolio manager found better investment growth opportunities elsewhere. In the industrials sector, the portfolio manager exited a position in Canada-based transportation firm Canadian National Railway. In the information technology sector, a position in Canada-based software and services firm CGI Inc. was sold off.

At the end of the review period, the Fund had its largest absolute exposures to the financials sector and the energy sector. The Fund diverged the most from its benchmark's sector weightings by having more exposure to the financials sector and less exposure to the materials sector.

Recent Developments

Portfolio manager Joe Overdevest believes the Canadian economy is currently in the late phase of the economic cycle, and that the current market environment continues to support adding value through fundamentals-based security selection. The manager believes persistent high inflation and the war in Ukraine have sparked uncertainty in global markets. This uncertainty, combined with the rate outlook for the U.S. Federal Reserve and the Bank of Canada, has led the portfolio manager to be cautious, and to remain vigilant about the portfolio's exposure to businesses that might be disrupted in their respective industries. The manager continues to seek opportunities among a high-conviction set of companies across a broad group of sectors. Fundamental analysis will continue to drive investment decisions, with a focus on companies that the portfolio manager believes to have strong business fundamentals, attractive valuations and management teams well aligned with shareholder interests.

Related Party Transactions

Fidelity Canadian Focused Equity Multi-Asset Base Fund Management Discussion of Fund Performance – continued

Manager and Portfolio Adviser

The Fund is managed by Fidelity Investments Canada ULC (Fidelity). Fidelity is part of a broader collection of companies collectively known as Fidelity Investments.

Fidelity provides or arranges for the provision of all general management and administrative services required by the Fund in its day-to-day operations, bookkeeping, record-keeping and other administrative services for the Fund.

Fidelity is the portfolio adviser to the Fund and it provides investment advisory services to the Fund. Fidelity provides investment advice with respect to the Fund's investment portfolio and arranges for the acquisition and disposition of portfolio investments, including all necessary brokerage arrangements. The Fund is only offered in Series O securities and is only available to: (i) institutional investors who may be individuals or financial institutions who have been approved by Fidelity and have entered into Series O fund purchase agreements with Fidelity; or (ii) other funds and accounts managed or advised by Fidelity. The Fund does not pay management and advisory fees, or other operating expenses, other than certain specified fund costs, including taxes, brokerage commissions and interest charges.

Brokerage Commissions

The Fund may place a portion of its portfolio transactions with brokerage firms which are affiliates of Fidelity, provided it determines that these affiliates' trade execution abilities and costs are comparable to those of non-affiliated, qualified brokerage firms, on an execution-only basis. Commissions paid to brokerage firms that are affiliates of Fidelity Investments were \$0 for the period ended September 30, 2024. Fidelity receives standing instructions from the IRC in respect of policies and procedures governing best execution of transactions with affiliates, which includes brokers affiliated to Fidelity Investments, at least once per year.

Independent Review Committee, Cross-Trading and In specie Transactions

Independent Review Committee

Fidelity has established an independent review committee (IRC) that acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting conflict of interest matters referred to it by Fidelity. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available at www.fidelity.ca or at the securityholder's request at no cost by contacting Fidelity, using the contact information available on the final page of this document.

Cross-Trading and In specie Transactions

The Fund received the approval and standing instructions from the IRC in order to:

- (i) engage in cross-trading, which is a form of interfund trading. A cross-trade occurs when the Fund purchases or sells portfolio securities from or to another Fund, a U.S. fund or a separately managed account, through a broker;
- (ii) permit the Fund, in certain circumstances, to purchase and redeem Fund securities in consideration for securities rather than cash of another investment fund not governed by NI 81-102, or a separately managed account, managed by Fidelity.

For each of the transactions in (i) and (ii) above, the IRC's standing instructions require Fidelity to act in accordance with its associated policies and procedures and applicable law, and comply with the conditions in each of the exemptive relief orders received, which, in the case of cross-trading, requires additional periodic reporting to the Ontario Securities Commission. The standing instructions also require that investment decisions in respect of these transactions (a) are free from any influence by an entity related to Fidelity and without taking into account any consideration relevant to an entity related to Fidelity; (b) represent the business judgment of Fidelity uninfluenced by considerations other than the best interests of the Fund; (c) comply with the applicable policies and procedures of Fidelity; and (d) achieve a fair and reasonable result for the Fund.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period end of the years shown. This information is derived from the Fund's audited annual and/or unaudited semi-annual financial statements. Please see the front page for information about how you can obtain the Fund's annual or semi-annual financial statements.

^A This information is derived from the Fund's audited annual and/or unaudited interim financial statements. The net assets attributable to securityholders per security presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to financial statements.

^B Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per security.

^C Distributions were paid in cash or reinvested in additional securities of the Fund, or both, and excludes any applicable distributions of management fee reduction to securityholders. Distributions are presented based on management's best estimate of the tax character.

^D This information is provided as at period end of the year shown.

^E Prior period amounts may have been adjusted.

^F The trading expense ratio represents total commissions, other portfolio transaction costs and dividends and interest expense on securities sold short expressed as an annualized percentage of daily average net asset value during the period, including the Fund's pro-rata share of estimated trading costs incurred in any underlying investment fund, if applicable.

^G The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities owned by the Fund, excluding short-term securities. The portfolio turnover rate includes any proceeds from a short sale in the value of sales of securities and the cost of covering a short sale in the value of purchases of securities. For periods greater than six months, but less than a full fiscal year, the portfolio turnover rate is annualized. The portfolio turnover rate excludes any adjustment for in-kind transactions.

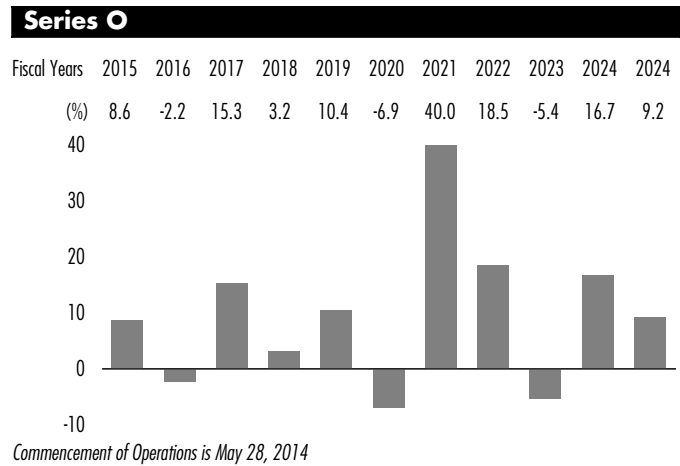

Fidelity Canadian Focused Equity Multi-Asset Base Fund

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund’s annual performance for each of the years shown, and illustrates how the Fund’s performance was changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year. For each Series in the Year-by-Year Returns table below, the most recent returns stated are for the current six month period.

Fidelity's mutual funds are sold by registered Investment Professionals. Each Fund has a simplified prospectus, which contains important information on the Fund, including its investment objective, purchase options, and applicable charges. Please obtain a copy of the prospectus, read it carefully, and consult your Investment Professional before investing. As with any investment, there are risks to investing in mutual funds. There is no assurance that any Fund will achieve its investment objective, and its net asset value, yield, and investment return will fluctuate from time to time with market conditions. Investors may experience a gain or loss when they sell their securities in any Fidelity Fund. Fidelity Global Funds may be more volatile than other Fidelity Funds as they concentrate investments in one sector and in fewer issuers; no single Fund is intended to be a complete diversified investment program. Past performance is no assurance or indicator of future returns. There is no assurance that either Fidelity Canadian Money Market Fund, Fidelity Canadian Money Market Investment Trust, Fidelity U.S. Money Market Fund or Fidelity U.S. Money Market Investment Trust will be able to maintain its net asset value at a constant amount. The breakdown of Fund investments is presented to illustrate the way in which a Fund may invest, and may not be representative of a Fund's current or future investments. A Fund's investments may change at any time.
