

# **Fidelity Global Investment Grade Bond ETF**

**Semi-Annual  
Management Report  
of Fund Performance**  
September 30, 2024

## **Caution Regarding Forward-looking Statements**

Certain portions of this report, including, but not limited to, "Results of Operations" and "Recent Developments", may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

# Semi-Annual Management Report of Fund Performance as at September 30, 2024

## Fidelity Global Investment Grade Bond ETF

*This semi-annual management report of fund performance contains financial highlights but does not contain the complete semi-annual financial statements for the investment fund. You can get a copy of the semi-annual financial statements at your request, and at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our website at [www.fidelity.ca](http://www.fidelity.ca) or SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).*

*Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure relating to the investment fund.*

## Management Discussion of Fund Performance

### Results of Operations

Fidelity Global Investment Grade Bond ETF returned 4.7%, after fees and expenses, for the six-month period ended September 30, 2024. During the review period, global bonds, as represented by the Bloomberg Global Aggregate Bond Index - Hedged CAD, returned 3.9% (in Canadian dollar terms).

Market overview:

Global investment-grade bonds, as broadly represented by the Bloomberg Global Aggregate Bond Index, returned 5.6% in Canadian dollar terms and 5.8% in U.S. dollar terms, for the six-month period ended September 30, 2024.

Global investment-grade bonds advanced in Canadian and U.S. dollar terms over the period under review. Government bond yields declined in response to a shift in macroeconomic indicators, and geopolitical tensions continued to weigh on investors' sentiment. In the U.S., annual headline inflation eased to 2.5% in August 2024, while in Europe, the harmonized index of consumer prices fell to 2.2% in August 2024, the lowest level since 2021. The U.S. Federal Reserve (the Fed) approved its first interest rate cut in four years in September 2024, lowering the benchmark policy rate by 50 basis points to 4.75–5.0%. The August jobs report was weaker than expected, indicating a softening U.S. labour market. The European Central Bank reduced its benchmark interest rates by 25 basis points in June and September, bringing the rate down to 3.50%. In contrast, the Bank of Japan announced an increase in its benchmark rate of interest in March and July, marking its first interest rate increase in 17 years. In China, investors were concerned about an uncertain economic outlook, despite supportive policy measures announced by the People's Bank of China.

Factors affecting performance:

The Fund outperformed its benchmark for the review period. The Fund's security selection among investment-grade bonds made the primary contribution to relative returns. Security selection among, and an out-of-benchmark allocation to, global bonds also contributed. There were no significant detractors during the review period.

Portfolio changes:

Over the review period, the portfolio management team increased the Fund's exposure to investment-grade bonds, while reducing allocations to floating rate bonds and global credit.

Derivatives disclosure:

During the period, the Fund engaged in forward foreign currency contracts, in a manner consistent with its investment objectives and strategies, to hedge against the effect of currency fluctuations on the investment returns of the Fund. The use of forward contracts in this manner does not completely eliminate the impact of currency fluctuations on returns.

### Recent Developments

The portfolio managers, Jeff Moore and Michael Plage are enjoying the compelling yield in the bond market but believe diversification remains key across sectors and securities. While the portfolio managers have historically looked to corporate bonds and other credit markets to add yield in the portfolio, the portfolio managers are currently excited about the value opportunity in risk-free U.S. Treasury securities. The portfolio managers believe that investment-grade corporate spreads are nearly as narrow as they have been in the past 25 years. The opportunity cost of an underweight position is now very low, in their view. With credit spreads in the investment grade bond market at historically tight levels, the portfolio managers prefer to instead own U.S. Treasury bonds as they can capture the vast majority of yield being offered by the sector without taking on the associated credit risk. The managers believe the U.S. presidential election is not an investable theme, and therefore are not expecting it to be a source of rate volatility in the near term.

Effective October 1, 2024, Brian Day, Celso Munoz and Stacie Ware were added as Portfolio Managers. Portfolio manager Jeff Moore has made the personal decision to retire at the end of 2024. Jeff will remain focused on co-managing the Fund until retirement and will play an instrumental role during the transition to help our clients be well positioned for the future. Fidelity is developing a transition plan and there are no expected changes to the investment objective and strategies as a result of Jeff's retirement.

### Related Party Transactions

#### Manager and Portfolio Adviser

The Fund is managed by Fidelity Investments Canada ULC (Fidelity). Fidelity is part of a broader collection of companies collectively known as Fidelity Investments.

Fidelity provides or arranges for the provision of all general management and administrative services required by the Fund in its day-to-day operations, bookkeeping, record-keeping and other administrative services for the Fund.

Fidelity is the portfolio adviser to the Fund and it provides investment advisory services to the Fund. Fidelity has entered into sub-advisory agreements with a number of entities including Fidelity Management & Research Company LLC, to provide investment advice with respect to all or a portion of the investments of the Fund. The sub-advisors arrange for acquisition and disposition of portfolio investments, including all necessary brokerage arrangements. The Fund pays Fidelity a monthly management and advisory fee for their services, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity management and advisory fees of \$480,000 for the period ended September 30, 2024.

#### Independent Review Committee, Cross-Trading and In specie Transactions

## **Fidelity Global Investment Grade Bond ETF Management Discussion of Fund Performance – continued**

### **Independent Review Committee**

Fidelity has established an independent review committee (IRC) that acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting conflict of interest matters referred to it by Fidelity. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available at [www.fidelity.ca](http://www.fidelity.ca) or at the securityholder's request at no cost by contacting Fidelity, using the contact information available on the final page of this document.

### **Cross-Trading and In specie Transactions**

The Fund received the approval and standing instructions from the IRC in order to:

- (i) engage in cross-trading, which is a form of interfund trading. A cross-trade occurs when the Fund purchases or sells portfolio securities from or to another Fund, a U.S. fund or a separately managed account, through a broker;
- (ii) permit the Fund, in certain circumstances, to purchase and redeem Fund securities in consideration for securities rather than cash of another investment fund not governed by NI 81-102, or a separately managed account, managed by Fidelity.

For each of the transactions in (i) and (ii) above, the IRC's standing instructions require Fidelity to act in accordance with its associated policies and procedures and applicable law, and comply with the conditions in each of the exemptive relief orders received, which, in the case of cross-trading, requires additional periodic reporting to the Ontario Securities Commission. The standing instructions also require that investment decisions in respect of these transactions (a) are free from any influence by an entity related to Fidelity and without taking into account any consideration relevant to an entity related to Fidelity; (b) represent the business judgment of Fidelity uninfluenced by considerations other than the best interests of the Fund; (c) comply with the applicable policies and procedures of Fidelity; and (d) achieve a fair and reasonable result for the Fund.

# Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period end of the years shown. This information is derived from the Fund's audited annual and/or unaudited semi-annual financial statements. Please see the front page for information about how you can obtain the Fund's annual or semi-annual financial statements.

Net asset value per security, end of period	\$	22.0514	\$	21.4632	\$	22.0508	\$	24.0800

<sup>A</sup> For the period April 7, 2020 (inception date) to March 31, 2021.

<sup>B</sup> This information is derived from the Fund's audited annual and/or unaudited interim financial statements. The net assets attributable to securityholders per security presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to financial statements.

<sup>C</sup> Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per security.

<sup>D</sup> Distributions were paid in cash or reinvested in additional securities of the Fund, or both, and excludes any applicable distributions of management fee reduction to securityholders. Distributions are presented based on management's best estimate of the tax character.

<sup>E</sup> This information is provided as at period end of the year shown.

<sup>F</sup> Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset values during the period, including the Fund's pro-rata share of estimated expenses incurred in any underlying investment fund, if applicable.

<sup>G</sup> The trading expense ratio represents total commissions, other portfolio transaction costs and dividends and interest expense on securities sold short expressed as an annualized percentage of daily average net asset value during the period, including the Fund's pro-rata share of estimated trading costs incurred in any underlying investment fund, if applicable.

<sup>H</sup> The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities owned by the Fund, excluding short-term securities. The portfolio turnover rate includes any proceeds from a short sale in the value of sales of securities and the cost of covering a short sale in the value of purchases of securities. For periods greater than six months, but less than a full fiscal year, the portfolio turnover rate is annualized. The portfolio turnover rate excludes any adjustment for in-kind transactions.

## Management and Advisory Fees

Fidelity serves as manager and investment advisor of the Fund. The Fund pays Fidelity a monthly management and advisory fee for its services, based on the net asset value of each Series, calculated daily and payable monthly. Fidelity uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund securities, as well as for the general investment management expenses. Dealer compensation represents cash commissions paid by Fidelity to registered dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by Fidelity during the period. For new Funds or Series the amounts presented may not be indicative of longer term operating periods.

	<b>Management Fees (%)</b>	<b>Dealer Compensation (%)</b>	<b>Investment management, administration and other (%)</b>
Series L	0.500	-	100.00

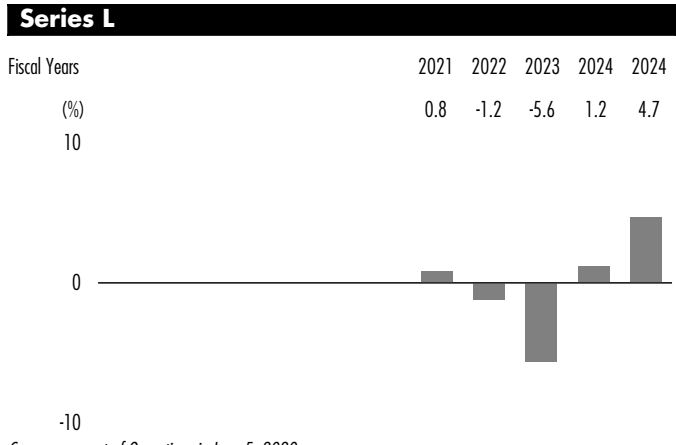

# Fidelity Global Investment Grade Bond ETF

## Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

### Year-by-Year Returns

The following bar chart shows the Fund's annual performance for each of the years shown, and illustrates how the Fund's performance was changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year. For each Series in the Year-by-Year Returns table below, the most recent returns stated are for the current six month period.

Commencement of Operations is June 5, 2020

## Summary of Investment Portfolio as at September 30, 2024

### Geographic Mix

	% of Fund's Net Assets as at September 30, 2024	% of Fund's Net Assets as at March 31, 2024
United States of America	79.5	78.6
United Kingdom	2.9	2.9
Germany	2.1	2.7
Mexico	1.3	1.8
Canada	1.2	1.5
Others (Individually Less Than 1%)	8.2	10.2
Cash and Cash Equivalents	5.8	1.0
Net Other Assets (Liabilities)	(1.0)	1.3

### Maturity Diversification

Years	% of Fund's Net Assets as at September 30, 2024	% of Fund's Net Assets as at March 31, 2024
0 – 1	7.0	2.4
1 – 3	1.9	3.1
3 – 5	8.3	8.9
Over 5	81.8	82.4

### Derivative Exposure

	% of Fund's Net Assets as at September 30, 2024	% of Fund's Net Assets as at March 31, 2024
Swaps	1.0	0.4
Futures Contracts	0.3	0.4
Forward Foreign Currency Contracts	(0.3)	0.2

Futures Contracts percentage is calculated by dividing the sum of the notional amount by total net assets.

Swaps percentage is calculated by dividing the sum of the notional and unrealized gain/loss by total net assets.

Forward Foreign Currency Contracts percentage is calculated by dividing the net unrealized gain/loss of all contracts held by total net assets.

### Quality Diversification

	% of Fund's Net Assets as at September 30, 2024	% of Fund's Net Assets as at March 31, 2024
AAA	64.3	63.9
AA	0.5	0.5
A	4.5	4.1
BBB	12.7	10.0
BB and Below	8.7	13.4
