

Fidelity Canadian Short Term Corporate Bond ETF

**Semi-Annual
Management Report
of Fund Performance**
September 30, 2024

Caution Regarding Forward-looking Statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Semi-Annual Management Report of Fund Performance as at September 30, 2024

Fidelity Canadian Short Term Corporate Bond ETF

This semi-annual management report of fund performance contains financial highlights but does not contain the complete semi-annual financial statements for the investment fund. You can get a copy of the semi-annual financial statements at your request, and at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our website at www.fidelity.ca or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure relating to the investment fund.

Management Discussion of Fund Performance

Results of Operations

Fidelity Canadian Short Term Corporate Bond ETF returned 5.1%, after fees and expenses, for the six-month period ended September 30, 2024. During the review period, Canadian bonds, as represented by the FTSE Canada Universe Bond Index, returned 5.6% (in Canadian dollar terms).

Market overview:

Canadian investment-grade bonds, as broadly represented by the FTSE Canada Universe Bond Index, returned 5.6% for six-month period ended September 30, 2024.

Canadian investment-grade bonds rose over the period under review, against a backdrop of easing inflationary pressure, and falling interest rates. Headline inflation fell to 2.0% in August, down from 2.7% in April, while wage pressures showed some signs of moderating but remain elevated. As inflationary pressure began to ease, the Bank of Canada (the BoC) cut its interest rate for the first time since 2020, reducing it by 25 basis points to 4.75% in June 2024. As a result, Canadian government bond yields trended lower during the review period, after peaking in April. The subsequent cooling labour market and progress in declining inflation provided room for two additional 25 basis point interest rate cuts in July and September, lowering the rate to 4.25%.

Factors affecting performance:

During the review period, the Fund's benchmark, the FTSE Canada Short Term Corporate Bond 5% Capped Index, returned 5.3%. The Fund underperformed its benchmark. The Fund's yield curve positioning detracted from relative performance. In contrast, the Fund's holdings in the real estate sector and an out-of-benchmark exposure to commercial mortgage-backed securities contributed to relative performance.

Portfolio changes:

At the sector level, the Fund had its highest relative weighting in the real estate sector and its lowest relative exposures to the financials and infrastructure sectors, compared to its benchmark. The Fund also continues to hold investments in commercial mortgage-backed securities that are not represented in the benchmark.

Recent Developments

Portfolio managers Sri Tella and Lee Ormiston believe that risk assets continue to price in a soft or no-landing scenario, and the pricing of rate cuts has been more aggressive than those signaled by the Federal Reserve. Headline inflation is now at the Bank of Canada's 2% mid-point target, mostly driven by the decline in energy price, while three-month and six-month annualized core inflation (inflation momentum) is running closer to 2.5%. Current rate levels appear to be near fair value, roughly in line with the portfolio managers' longer term views on the neutral rate. While markets are pricing in an aggressive path of rate cuts, the portfolio managers believe that overall levels of rates, economic uncertainty, and lingering geopolitical risks all continue to warrant an allocation to fixed income. However, the uncertain outlook and overall corporate valuations warrant being selective on credit exposure.

Related Party Transactions

Manager and Portfolio Adviser

The Fund is managed by Fidelity Investments Canada ULC (Fidelity). Fidelity is part of a broader collection of companies collectively known as Fidelity Investments.

Fidelity provides or arranges for the provision of all general management and administrative services required by the Fund in its day-to-day operations, bookkeeping, record-keeping and other administrative services for the Fund.

Fidelity is the portfolio adviser to the Fund and it provides investment advisory services to the Fund. Fidelity has entered into sub-advisory agreements with a number of entities including Fidelity Management & Research Company LLC, to provide investment advice with respect to all or a portion of the investments of the Fund. The sub-advisors arrange for acquisition and disposition of portfolio investments, including all necessary brokerage arrangements. The Fund pays Fidelity a monthly management and advisory fee for their services, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity management and advisory fees of \$303,000 for the period ended September 30, 2024.

Independent Review Committee, Cross-Trading and In specie Transactions

Independent Review Committee

Fidelity has established an independent review committee (IRC) that acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting conflict of interest matters referred to it by Fidelity. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available at www.fidelity.ca or at the securityholder's request at no cost by contacting Fidelity, using the contact information available on the final page of this document.

Cross-Trading and In specie Transactions

The Fund received the approval and standing instructions from the IRC in order to:

- (i) engage in cross-trading, which is a form of interfund trading. A cross-trade occurs when the Fund purchases or sells portfolio securities from or to another Fund, a U.S. fund or a

Fidelity Canadian Short Term Corporate Bond ETF

Management Discussion of Fund Performance – continued

separately managed account, through a broker;

(ii) permit the Fund, in certain circumstances, to purchase and redeem Fund securities in consideration for securities rather than cash of another investment fund not governed by NI 81-102, or a separately managed account, managed by Fidelity.

For each of the transactions in (i) and (ii) above, the IRC's standing instructions require Fidelity to act in accordance with its associated policies and procedures and applicable law, and comply with the conditions in each of the exemptive relief orders received, which, in the case of cross-trading, requires additional periodic reporting to the Ontario Securities Commission. The standing instructions also require that investment decisions in respect of these transactions (a) are free from any influence by an entity related to Fidelity and without taking into account any consideration relevant to an entity related to Fidelity; (b) represent the business judgment of Fidelity uninfluenced by considerations other than the best interests of the Fund; (c) comply with the applicable policies and procedures of Fidelity; and (d) achieve a fair and reasonable result for the Fund.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period end of the years shown. This information is derived from the Fund's audited annual and/or unaudited semi-annual financial statements. Please see the front page for information about how you can obtain the Fund's annual or semi-annual financial statements.

^A For the period August 28, 2019 (inception date) to March 31, 2020.

^B This information is derived from the Fund's audited annual and/or unaudited interim financial statements. The net assets attributable to securityholders per security presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to financial statements.

^C Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per security.

^D Distributions were paid in cash or reinvested in additional securities of the Fund, or both, and excludes any applicable distributions of management fee reduction to securityholders. Distributions are presented based on management's best estimate of the tax character.

^E This information is provided as at period end of the year shown.

^F Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset values during the period, including the Fund's pro-rata share of estimated expenses incurred in any underlying investment fund, if applicable.

^G The trading expense ratio represents total commissions, other portfolio transaction costs and dividends and interest expense on securities sold short expressed as an annualized percentage of daily average net asset value during the period, including the Fund's pro-rata share of estimated trading costs incurred in any underlying investment fund, if applicable.

^H The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities owned by the Fund, excluding short-term securities. The portfolio turnover rate includes any proceeds from a short sale in the value of sales of securities and the cost of covering a short sale in the value of purchases of securities. For periods greater than six months, but less than a full fiscal year, the portfolio turnover rate is annualized. The portfolio turnover rate excludes any adjustment for in-kind transactions.

Management and Advisory Fees

Fidelity serves as manager and investment advisor of the Fund. The Fund pays Fidelity a monthly management and advisory fee for its services, based on the net asset value of each Series, calculated daily and payable monthly. Fidelity uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund securities, as well as for the general investment management expenses. Dealer compensation represents cash commissions paid by Fidelity to registered dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by Fidelity during the period. For new Funds or Series the amounts presented may not be indicative of longer term operating periods.

	Management Fees (%)	Dealer Compensation (%)	Investment management, administration and other (%)
Series L	0.400	-	100.00

Fidelity Canadian Short Term Corporate Bond ETF

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund’s annual performance for each of the years shown, and illustrates how the Fund’s performance was changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year. For each Series in the Year-by-Year Returns table below, the most recent returns stated are for the current six month period.
