

# **Fidelity U.S. All Cap Class of the Fidelity Capital Structure Corp.**

**Semi-Annual  
Management Report  
of Fund Performance  
May 31, 2024**

## Caution Regarding Forward-looking Statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

# Semi-Annual Management Report of Fund Performance as at May 31, 2024

## Fidelity U.S. All Cap Class of the Fidelity Capital Structure Corp.

*This semi-annual management report of fund performance contains financial highlights but does not contain the complete semi-annual financial statements for the investment fund. You can get a copy of the semi-annual financial statements at your request, and at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our website at [www.fidelity.ca](http://www.fidelity.ca) or SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).*

*Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure relating to the investment fund.*

## Management Discussion of Fund Performance

### Results of Operations

Fidelity U.S. All Cap Class (the Fund) invests substantially all of its assets in securities of Fidelity U.S. All Cap Fund (Underlying Fund).

Fidelity U.S. All Cap Class, Series B, returned 15.9%, after fees and expenses, for the six-month period ended May 31, 2024. The net returns of the other series of the Fund are similar to those of Series B, except for differences attributable to expense structures. During the review period, U.S. equities, as represented by the S&P 500 Index, returned 17.0% (in Canadian dollar terms).

Market overview:

U.S. equities, as measured by the S&P 500 Index, returned 17.0% in Canadian dollar terms and 16.4% in U.S. dollar terms, for the six-month period ended May 31, 2024.

U.S. equities rose during the review period. Strong corporate earnings, persistent economic growth, and a potential peak in the interest rate hiking cycles all boosted investor confidence. Select beneficiaries of developments in the artificial intelligence space, mainly within the communication services and information technology sectors, also contributed to gains. However, equity market upside was somewhat limited as investors lowered their expectations of rate-cuts in 2024. This was partly a result of continued strength in the U.S. economy, while inflation, as measured by the U.S. consumer price index, remained persistent at 3.4% in April 2024. The labour market was also strong, with modest signs of softening towards the end of the review period. The U.S. economy created 175,000 new jobs in April (U.S. Nonfarm Payrolls), the smallest increase in six months, while the unemployment rate climbed slightly to 3.9%. Against this backdrop, the U.S. Federal Open Markets Committee held the Federal Funds rate unchanged at 5.25%–5.50% in its May 2024 policy meeting.

Factors affecting performance:

The Fund's benchmark, the Russell MidCap Value Index, returned 15.1% for the review period. The Fund outperformed its benchmark, primarily due to the Underlying Fund's exposure to certain stocks in the utilities and energy sectors. In the utilities sector, an investment in U.S.-based energy firm Constellation Energy, and out-of-benchmark exposure to U.S.-based energy firm NextEra Energy, contributed to relative returns. In the energy sector, out-of-benchmark exposure to U.S.-based energy firm Expro Group Holdings, and an investment in U.S.-based oil and natural gas firm Antero Resources, both contributed to relative returns. In other sectors, out-of-benchmark exposure to Singapore-based electronics manufacturing services firm Flex, and U.S.-based healthcare and insurance firm Cigna Group, contributed to relative returns.

In contrast, investments in, and lower-than-benchmark exposure to, the industrials sector detracted from relative returns. In the sector, an investment in U.S.-based uniforms and workplace supplies provider Vestis, and lack of exposure to a U.S.-based infrastructure and services firm, detracted from relative returns. Investments in certain stocks in the health care sector also detracted from relative returns. In that sector, out-of-benchmark exposure U.S.-based managed care company Centene Corporation, and to U.S.-based health care and retail pharmacy services firm CVS Health, detracted from relative returns. In other sectors, investments in U.S.-based financial and payments technology firm Global Payments, and U.S.-based software and services firm NCR Voyix, detracted from relative returns.

Portfolio changes:

During the review period, the Underlying Fund's exposure to the industrials and communication services sectors was increased. In the industrials sector, the portfolio manager initiated a position in U.S.-based electrical distribution and services firm WESCO International. In the communication services sector, a position was initiated in U.S.-based advertising firm Interpublic Group of Companies. The portfolio manager believes these companies offer strong sustainable cash flow outlooks and are valued attractively.

In contrast, exposure to the real estate and financials sectors was decreased. In the real estate sector, the portfolio manager exited a position in U.S.-based real estate services firm Jones Lang Lasalle. In the financials sector, a position was exited in U.S.-based real estate finance and advisory services firm Walker & Dunlop. The portfolio manager chose to invest in other opportunities the portfolio manager believes to have more risk/reward potential.

At the end of the review period, the Underlying Fund had its largest absolute exposure to the industrials sector, followed by the financials sector. The Underlying Fund diverged most from its benchmark's sector weightings by having more exposure to the energy sector, and less exposure to the information technology sector.

### Recent Developments

The Underlying Fund's investment objective aims to achieve long-term capital growth by investing primarily in equity securities of U.S. companies. Portfolio manager Matt Friedman uses a disciplined approach that is focused on identifying what the manager believes to be high-quality companies trading at a discount. The portfolio manager aims to find the highest-quality companies that are trading at a discount by focusing on those that exhibit high return on equity, good balance sheets, and strong free cash flow-generation. The portfolio manager continues to find what the manager believes to be attractive valuations in the mid-cap U.S. equity space. Those stocks provide opportune entry points for potential long-term capital appreciation.

### Related Party Transactions

#### Manager and Portfolio Adviser

The Fund is managed by Fidelity Investments Canada ULC (Fidelity). Fidelity is part of a broader collection of companies collectively known as Fidelity Investments.

Fidelity provides or arranges for the provision of all general management and administrative services required by the Fund in its day-to-day operations, bookkeeping, record-keeping and

## **Fidelity U.S. All Cap Class of the Fidelity Capital Structure Corp. Management Discussion of Fund Performance – continued**

other administrative services for the Fund.

Fidelity is the portfolio adviser to the Fund and it provides investment advisory services to the Fund. Fidelity has entered into sub-advisory agreements with a number of entities including Fidelity Management & Research Company LLC, to provide investment advice with respect to all or a portion of the investments of the Fund. The sub-advisors arrange for acquisition and disposition of portfolio investments, including all necessary brokerage arrangements. The Fund pays Fidelity a monthly management and advisory fee for their services, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity management and advisory fees of \$415,000 for the period ended May 31, 2024.

### **Administration Fee**

Fidelity charges the Fund a fixed administration fee in place of certain variable expenses. Fidelity, in turn, pays all of the operating expenses of the Fund, other than certain specified fund costs (e.g. the fees and expenses of the Independent Review Committee, taxes, brokerage commissions and interest charges). The Fund pays an annual rate, which is calculated on a tiered basis, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity administration fees of \$46,000 for the period ended May 31, 2024.

### **Independent Review Committee, Cross-Trading and In specie Transactions**

#### **Independent Review Committee**

Fidelity has established an independent review committee (IRC) that acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting conflict of interest matters referred to it by Fidelity. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available at [www.fidelity.ca](http://www.fidelity.ca) or at the securityholder's request at no cost by contacting Fidelity, using the contact information available on the final page of this document.

#### **Cross-Trading and In specie Transactions**

The Fund received the approval and standing instructions from the IRC in order to:

- (i) engage in cross-trading, which is a form of interfund trading. A cross-trade occurs when the Fund purchases or sells portfolio securities from or to another Fund, a U.S. fund or a separately managed account, through a broker;
- (ii) permit the Fund, in certain circumstances, to purchase and redeem Fund securities in consideration for securities rather than cash of another investment fund not governed by NI 81-102, or a separately managed account, managed by Fidelity.

For each of the transactions in (i) and (ii) above, the IRC's standing instructions require Fidelity to act in accordance with its associated policies and procedures and applicable law, and comply with the conditions in each of the exemptive relief orders received, which, in the case of cross-trading, requires additional periodic reporting to the Ontario Securities Commission. The standing instructions also require that investment decisions in respect of these transactions (a) are free from any influence by an entity related to Fidelity and without taking into account any consideration relevant to an entity related to Fidelity; (b) represent the business judgment of Fidelity uninfluenced by considerations other than the best interests of the Fund; (c) comply with the applicable policies and procedures of Fidelity; and (d) achieve a fair and reasonable result for the Fund.

# Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period end of the years shown. This information is derived from the Fund's audited annual and/or unaudited semi-annual financial statements. Please see the front page for information about how you can obtain the Fund's annual or semi-annual financial statements.

## Financial Highlights Footnotes

- <sup>A</sup> This information is derived from the Fund's audited annual and/or unaudited interim financial statements. The net assets attributable to securityholders per security presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to financial statements.
- <sup>B</sup> Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per security.
- <sup>C</sup> Distributions were paid in cash or reinvested in additional securities of the Fund, or both, and excludes any applicable distributions of management fee reduction to securityholders.
- <sup>D</sup> This information is provided as at period end of the year shown.
- <sup>E</sup> Prior period amounts may have been adjusted.
- <sup>F</sup> Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset values during the period, including the Fund's pro-rata share of estimated expenses incurred in any underlying investment fund, if applicable.
- <sup>G</sup> Effective November 1, 2014, the manager of the Fund has waived a portion of its administration fee and as of the date of the MRFP has continued to provide the Fund with such waivers. The manager may terminate the waiver at any time, at its sole discretion. It is not known when such waivers will be terminated.
- <sup>H</sup> The trading expense ratio represents total commissions, other portfolio transaction costs and dividends and interest expense on securities sold short expressed as an annualized percentage of daily average net asset value during the period, including the Fund's pro-rata share of estimated trading costs incurred in any underlying investment fund, if applicable.
- <sup>I</sup> The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities owned by the Fund, excluding short-term securities. The portfolio turnover rate includes any proceeds from a short sale in the value of sales of securities and the cost of covering a short sale in the value of purchases of securities. For periods greater than six months, but less than a full fiscal year, the portfolio turnover rate is annualized. The portfolio turnover rate excludes any adjustment for in-kind transactions.

## Management and Advisory Fees

Fidelity serves as manager and investment advisor of the Fund. The Fund pays Fidelity a monthly management and advisory fee for its services, based on the net asset value of each Series, calculated daily and payable monthly. Fidelity uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund securities, as well as for the general investment management expenses. Dealer compensation represents cash commissions paid by Fidelity to registered dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by Fidelity during the period. For new Funds or Series the amounts presented may not be indicative of longer term operating periods.

	<b>Management Fees (%)</b>	<b>Dealer Compensation (%)</b>	<b>Investment management, administration and other (%)</b>
Series A	2.000	25.04	74.96
Series B	1.850	54.05	45.95
Series F	0.850	-	100.00
Series F5	0.850	-	100.00
Series F8	0.850	-	100.00
Series T5	2.000	34.08	65.92
Series T8	2.000	33.78	66.22
Series S5	1.850	54.05	45.95
Series S8	1.850	54.05	45.95

# Fidelity U.S. All Cap Class of the Fidelity Capital Structure Corp.

## Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

### Year-by-Year Returns

The following bar chart shows the Fund's annual performance for each of the years shown, and illustrates how the Fund's performance was changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year. For each Series in the Year-by-Year Returns table below, the most recent returns stated are for the current six month period.

Fidelity's mutual funds are sold by registered Investment Professionals. Each Fund has a simplified prospectus, which contains important information on the Fund, including its investment objective, purchase options, and applicable charges. Please obtain a copy of the prospectus, read it carefully, and consult your Investment Professional before investing. As with any investment, there are risks to investing in mutual funds. There is no assurance that any Fund will achieve its investment objective, and its net asset value, yield, and investment return will fluctuate from time to time with market conditions. Investors may experience a gain or loss when they sell their securities in any Fidelity Fund. Fidelity Global Funds may be more volatile than other Fidelity Funds as they concentrate investments in one sector and in fewer issuers; no single Fund is intended to be a complete diversified investment program. Past performance is no assurance or indicator of future returns. There is no assurance that either Fidelity Canadian Money Market Fund, Fidelity Canadian Money Market Investment Trust, Fidelity U.S. Money Market Fund or Fidelity U.S. Money Market Investment Trust will be able to maintain its net asset value at a constant amount. The breakdown of Fund investments is presented to illustrate the way in which a Fund may invest, and may not be representative of a Fund's current or future investments. A Fund's investments may change at any time.
